Operative Association and Reformation Society, together with the Reply of the Lord Lieutenant. Lord Eliot opposed its production, and the motion was negatived.

The writ of election for Londonderry was issued on Moday last, by the Speaker of the House of Commons, and Lieut. Thos. Bateson, 13th Light Dragoons, brother of the late excellent and much regretted member, will be unanimously returned in his place on the 13th inst.

Government will not increase the number of Irish members in the House of Commons.

Thomas Worthington, Esq. port collector of Dublin, has arrived in town to inspect the arrangements in progress at the Custom-house, for consolidating the Customs, Excise, and Post-office departments in one establishment. The post-office front, and delivery of letters, will be in Rutland-street.

Johanna Boyle, and Mary Shaughnessy, domestics at Cahara house, Glin, the seat of R. Q. Sleeman, Esq. County High Sheriff, were found dead in their bed-room on Thursday morning, having retired the night before in good health. There was no fire-place in the apartment, the door of which they had locked inside, and the family had to break it open next morning, in alarm for their non-appearance. The verdict at the inquest was, " Died by the visitation of God."

The Railroad from Dublin to Cashel will be commenced in the next summer, and will be completed in two years. The share list is filling rapidly in Dublin (7,500 shares being already taken.) The provisional committee, being desirous of affording to the Irish proprietors an opportunity of evincing their interest in the undertaking, have not allowed, as yet, any announcement of it to appear in the English Papers. The Grand Jury of Clare took up the subject very warmly, and yesterday some hundred shares were taken in Ennis. We understand that Master Goold, Col. Vandeleur, Sir Lucius O'Brien, Bart. Richard Moore, Esq. Q.C. and several other influential landed proprietors, have become shareholders in the proposed railway, which must, eventually, extend to Limerick and Clare.

Ar Shanagolden Petty Sessions, on Wednesday, Vere Hunt, Esq. of Askeaton, presiding—Michael Ray, and Mat. M'Donnell, were convicted in mitigated penalties of £2, and costs, for obstructing the servants of the lessee of Lord Monteagle, while in the lawful prosecution of a fishery on Foyne's Island. Mr. John Morris, Petty Sessions' Clerk, Newcastle, was, at the prosecution of Mr. Supervisor Peacock, of Rathkeale, convicted in a mitigated penalty of £5, for coursing and killing a hare with unlicensed dogs, on the lands of Clounlahard.

The Shannon Navigation improvement Commissioners continue to employ a large number of mechanics and labourers. During this week there were one thousand men at work on the Upper Shannon, and there is every prospect of that number being increased.

The Ballast Board propose building a Tower at the Light-house, Loophead, mouth of the Shannon.
