

committee meeting discussing financial questions in the light of post-emergency conditions. The Secretary reported that an election for Harbour Commissioners was due to be held next November, and he thought that the Department should request the Department to postpone the election until the emergency had passed. The Department had agreed to such a postponement on a previous occasion. It was unanimously decided to request the Department to further postpone the election. In the proposition of the Mayor, a note of sympathy was tendered to the Secretary in his bereavement caused by the death of his father-in-law. Sympathy was also voted to the O'Flynn family, "Greenville," 100, Connell Avenue, on the death of Mr. O'Flynn, a former member of the Board.

Gaelic and free Ireland. They were not alienated from the policy of the past years, because they believed that the policy which had saved the language from extinction, which brought about the culmination of Easter 1916, and produced men like An Gortaín, was the policy that was bound to win in the end. They in the Gaelic League were not so blind that they could not see that new methods must be followed if they were to succeed in their object, nor were they so blind that they could not see that other bodies were working for the same thing.
