Last night, Mr. Swinburn's New Rooms were crowded
 to excess, to witness the Irish Youth display his strength, a
 sight that has never been witnessed in this part of the
 Country before. Though the badness of the times has made
 no impression on the minds of the people to retard them from
 seeing this Herculean champion, — so well may he be called
 that, when he lifts up four hundred, three quarters and
 twenty-one pounds, with his teeth, among his other Perfor-
 mances; so we recommend our readers not to lose the
 present opportunity of witnessing such an Exhibition, as
 he only stops three nights longer.
