people were dancing in the room at the time.
 Rescue work was seriously impeded by the
 possibility that the remaining walls would
 collapse. Searchlights were installed to assist in
 the rescue operations. After the preliminary
 search had been completed, during which a num-
 ber of injured people were released, the menacing
 front wall of the building and the threatening
 rafters were removed, and cranes and wagons
 began the demolition of the building and the
 removal of the debris.

All day long the work went on. Voices, chief-
 ly those of women, were heard calling for help from
 beneath the debris in the early hours of the
 morning, but became silent as the day wore on.

THE CITY WATER SUPPLY.

Mr F S Rushworth, of the College of Science
 Power Section, Dublin, will visit the city next
 week with a view to making arrangements for
 ensuring an adequate water supply for the city
 under the Shannon Power Scheme. Mr Rushworth's
 visit is the result of representation recently made
 by Corporation with the object of conserving the
 normal water supply of Limerick in connection
 with the hydro-electric scheme.

MOTOR ACCIDENT.

While motoring to his residence at Mulkear
 Cottage on Friday evening, Mr A. M. O'Mara had
 a narrow escape from serious injury. He was
 turning off the trunk road into his house, when
 the back of his car was struck by a motor car
 driven by Colonel Reynolds. The rear mud-
 guard of Mr O'Mara's car was taken away, and
 Colonel Reynolds was precipitated from his car on
 to the road, but only received slight injuries.

SUDDEN DEATH IN CITY.

An old man named Whitaker was taken suddenly
 ill while partaking of a meal at the Coffee Stall,
 Mount Kennett Quay, to-day and died in a short
 time. The deceased was an R.I.C. pensioner and
 had no fixed abode. He was of strange demeanour
 and spent the greater portion of his time about the
 docks and in the People's Park.

THE GRAND CENTRAL.

A very fine picture, in eight parts, featuring
 Harold Lloyd in "Girl Shy," was shown at the
 Grand Central last night to large audiences. It
 contains many humorous situations, and they
 were enjoyed to the full. The picture will also be
 shown to-night and Wednesday.

On Thursday, Friday, and Saturday a big love
 melodrama, in which Paris is the scene—
 "Shadows of Paris"—will be shown. Comedy is
 also excellently represented this week.

CLAREVILLE WATERWORKS ENGINEER.

The Ministry for Local Government has directed
 Mr E. Mac Oireachtaigh to hold a sworn enquiry
 in the Town Hall at noon on the 14th instant into
 the circumstances connected with the dismissal by
 the late Corporation of Mr Patrick Walsh, a
 resident engineer at the Clareville Waterworks.
