The Justice said he would hold in favour of the defendant and not allow consequential damages to plaintiff. As the machine had been returned he would give a decree for £2 15s. and allow plaintiff £1 expenses. He (Justice) was satisfied that the warranty was not given.

LORRY TRAGEDY

INQUEST ON VICTIM

A verdict of accidental death was returned at an inquest held in the County Infirmary, Limerick, by Mr. J. S. McNeice, solr., Deputy Coroner, into the death of John Coffey (47), 28, Davis Street, Tipperary, who died following injuries sustained when a lorry which he was driving overturned on the road at Ballysimon on Saturday evening last.

Evidence was given that deceased was driving a lorry, owned by the Condensed Milk Co., Ltd., from Limerick to Tipperary, and that between Ballysimon and Killonan, it was seen to mount the ditch. The vehicle turned completely over and deceased was pinned underneath.

Medical evidence showed that the deceased sustained extensive injuries, and died shortly after being admitted to hospital.

The Coroner and jury expressed sympathy with the relatives of deceased, as did Supt. Dunning and Mr. T. O'B. Kelly, solr., on behalf of the deceased's employers.

PRE-WAR 'BUS SERVICE

The public will be very pleased to learn that as from Monday next the long-distance bus services will be placed on a pre-war footing.

The "Limerick Leader" is in a position to state that the Great Southern Railways Co. has made arrangements to run extra buses on all routes as from Monday next.

The new service, which will be on a footing comparable to that obtaining in 1939, will be run on each day of the week and not on a restricted basis, as at present. In other words, as from next Monday the country will have a long-distance bus service similar to that of pre-war years.

In fact, during the current week the restricted one or two day services to various centres are being extended to each day of the week. From next Monday, however, as already stated, the service will be restored to the 1939 level.
