

nessy—and well may we feel proud of them (hear, hear).

Mr Moloney (Coopers) pointed out the great good which his trade had gained through the Council, and asked all workers, whether of the spade or the pen, to put their hand to the plough and push on the good cause.

Mr Bethel (Smiths) followed in the same strain.

Mr O'Connor (Bakers), in the course of a few remarks, pointed out that though his society had been able to fight for two years against the unfair dealing of the Croom Mills' Bakery, he could honestly say that during the last few weeks they had made more progress towards succeeding in their demands than had been made previously, and that was mainly due to the Trades Council.

A vote of thanks was passed to the officers:—Messrs T. Gavin, President, J. M'Cormack, Vice-President; R. P. O'Connor, Treasurer; J. Hennessy and J. Sheehan, Secretaries.

### FATAL ACCIDENT IN THE HAY FIELD.

(FROM OUR CORRESPONDENT.)

CASTLEMAHON, SATURDAY.

On Wednesday last a serious accident, unhappily attended with fatal consequences, occurred to a young man named William Kane, while engaged at hay-making on the farm of Mr Michael S. Geary, at Cooliska, about two miles from here. When the deceased, with a man named Thomas Fitzgibbon, had completed the making of a wynd, the former while in the act of sliding off unfortunately came in contact with the handle of a pitchfork placed near the wynd by the latter, and getting completely overbalanced was thrown violently forward, his head coming in contact with the ground, and resulting in injuries that necessitated his removal to the union hospital at Newcastle West, where he died this morning. Much sympathy is manifested for the family of the deceased, who had merely become able to render some assistance in the work of providing for their maintenance. This is the second accident which has occurred here within the last few weeks, the other victim, Mr Jeremiah Walsh, having narrowly escaped a similar fate through a kick from a horse, which shattered the orbit of his right eye, and reduced the organ itself into a pulp. The injured man lost a vast quantity of blood. He is much advanced in years, and his medical attendant, Dr John Ambrose, of Newcastle, has informed your correspondent that had the injuries to the head extended the fourth part of an inch further to the left or right, death would be the inevitable result, so that the escape in this case was simply marvellous. It will be a source of pleasure to all to know that he is all but recovered.

### TO CORRESPONDENTS.

Held over to next issue the following:—Letter "Irish Co-operative Agency Society, Limited," Miltown-Malbaw Intelligence, letter "Shannon Fisheries," report of Tulla Union, and other interesting correspondence.
