

complain of the capture of 18 in the Mediterranean, by the 17th of April to the 8th June, carried into Malta for adjudicate their names.

TRALEE, Sept. 4.—It is only for the the extravagant reports which have been perhaps elsewhere, that we feel it necessary to state the circumstances of the deaths of two persons. Rumours, propagated and received with scarcely hesitate to state that we have got tracing amongst us in all its virulence. The extent of the mortality occasioned by it thought unnecessary for us to adduce on correctness of this wicked or unthinking purpose of learning whence the reports have applied for information to the same may be best obtained, and have discovered the proper precautions which were observed as much as possible, all access to the apartments, in fumigating their rooms and consequently it certainly appears that the fever of attended with symptoms of a very unobtrusively of an alarming nature. The communication from one to the other, and each man died in about 24 hours after having them, a stranger in this country, who some weeks, and was taken into the Hospital of a very sore leg, said his name was he came from the county of Clare. He covered with spots, and the Medical Gen had never before met such cases. No present affected with the disorder.

Description—the Price according

On Sunday last, an Ordination was held at the Cathedral by the Right Rev. the Lord Bishop of Limerick, at which the following Deacons were admitted to the order of Priesthood:—Rev. Mr. Wall, Rev. Mr. Hawkshaw, Rev. Mr. Gubbins, and Rev. Mr. Head:—and the following to the order of Deacons:—Mr. A. Herbert, Mr. Dowling, Mr. Ingram, Mr. Thomas Monsell, Mr. Fillgate, Mr. Henry Rose, Mr. Gubbins, and Mr. Sandes.

Yesterday, the first meeting of the Commissioners for the parish of St. Michael, was held at the Commercial Buildings, pursuant to notice in this Paper, when among other business, they agreed to receive proposals for watching, cleaning, paving, &c. the New Town.—See Adv.

We hear that on Saturday night last, a detachment from the Queen's County Militia, quartered in Nenagh, in consequence of information; proceeded to the mountains near Killaloe, where they succeeded in apprehending the person they went in search of, who they found in bed, with a case of loaded pistols near him, & who is strongly suspected of being one of the gang of robbers that committed the late depredations in this neighbourhood.

It appears, from advertisements in the Dublin Evening Post, that the landed Protestant proprietors of the Queen's County have declared their approbation and support of the Catholic claims, in the strongest terms of charity and conciliation: and that the high sheriff has summoned a general meeting of the freeholders, to take into consideration the present system of tythes.

Thursday night, last, some daring persons got into the window of Mr. Pope's Drawing-room, at Mr. Coghlan's, on the Grand Parade, Cork, and stole a Portable Desk, containing nearly One Hundred Pounds, and several valuable paintings, particularly some on velvet by Mrs. Pope. They broke the Desk to pieces, and afterwards threw it into the River, where parts of it were found. It is supposed they ascended by means of a ladder, and got over the Iron Ballustrade outside the Window.

Just as we were putting to press, we were informed that Mr. Robert Parkinson, of Kilrush, was attacked last night on the Meelick road by 5 armed ruffians, who fire at, and robbed him of two hundred pounds. We are happy to hear the shot did not take effect.

The Rev. W. D. Hoare, Treasurer to the Co. Limerick Infirmary, having given notice of his intention to resign that office on the 25th day of December next, a meeting of the Governors and Governesses is to be held at the County Infirmary on Friday the 11th of September inst. at one o'clock in the afternoon, to elect a Treasurer.—The attendance of every Governor and Governess is earnestly wished for.

Yesterday died, at her lodgings on Charlotte's Quay, in the 90th year of her age, Mrs. Anne Banks, relict of Samuel Banks, late of Ardee, in the Co. Louth, Esq. sincerely regretted by all those who had the happiness of knowing her many estimable qualities.—Few, perhaps, ever possessed in a more eminent degree than she did the amiable feeling of benevolence; as the best proof of this generous impulse and disposition, we have the pleasure of stating, that she has bequeathed a very considerable sum, to be applied by her Executors, James Cooper, Esq. the Rev. Wm. Lewis, and Daniel Gabbett, Esq. to such charitable purposes as they shall deem fit.

There has been an action between the Comus and a Danish frigate of 32 guns.—After a sharp action the Dane struck, having had 34 men killed and wounded. The Comus did not lose a man.

Mr. Hill was 15 days upon his passage. The dispatches, we believe, are dated on the 10th in the evening.

Two Gottenburgh Mails arrived last night.—The arrival of the official dispatches from Admiral Buxtehude, renders the accounts brought by the relative to our Expedition of less interest than they otherwise would have been. A courier from Malmo, which he left on the 19th, brought the information to Gottenburgh on the 21st, that the English fleet was bombarding Copenhagen, when he quitted it. Malmo is situated nearly opposite Copenhagen, and the bombardment might be heard at the former place. The German Legion, which had been sent to co-operate with the Swedes in the defence of Stralsund, were embarked at Perth, in the Isle of Rugen, the beginning of last month, and immediately sailed to co-operate in the attack upon the Island of Zealand.—Lord Cathcart immediately after their embarkation took leave of his Swedish Majesty for the purpose of taking the command of the troops sent to Copenhagen.

Stralsund continues to hold out, and no impression appears yet to have been made upon the fortress.

DUBLIN—SEPTEMBER 5.

FROM THE CORRESPONDENT.
London, Thursday Evening, Sept. 3.

We have been favoured with the substance of fresh dispatches received this morning from Admiral Gambier, brought by the Swan cutter, which arrived at Yarmouth yesterday morning.

These dispatches are to the 22d inclusive, by which it appears, that Copenhagen was fully invested, and our batteries erecting, and almost ready to open. We had taken the Royal Fountry, about eight miles from Copenhagen, with 100 men, without loss, and repulsed a small party which had collected near Roskilde. We had not only two privates, but unfortunately Lieut. Lyons, and Ensign Dixon of the artillery, had been killed. The country gentlemen were acting under Commissions to keep peace. Early on the 21st, when the accounts came away an attack commenced, but the precise object or result was not known. The attack alluded to, it is rumoured, was on the Crown Battery. Lord Cathcart states, we hear, that he could have made himself master of it by storm, but in order to save the effusion of blood, he deemed it necessary to proceed by regular siege. The Princesses has been permitted to leave Copenhagen, but no one else.—Part of the inhabitants of Copenhagen, the more wealthy, are said to have strongly urged the necessity of surrendering the City by Capitulation. A few of the gun-boats had come out of the harbour to annoy us, but had been driven back immediately.

The dispatches were brought by Mr. Hoppner, son of Mr. Hopper the Painter.

The arrival of the dispatches this morning gave rise to a variety of gloomy rumours in the City, of our having sustained great loss in a battle with the Danes:—There is no truth in these rumours.

SURRENDER OF STRALSUND.

To the above account we are sorry to have to add, that intelligence has been received of the surrender of Stralsund to the French.—Whether
