The day before last, a hawker of the name of W. S., who is now in prison at Limerick, is said to be very little doubt but he was connected with a conspiracy. He was a native of Carrick, to be spoken of as part of the crowd; and in another place it is stated that he is at the Cape of Good Hope, where he left his city, and family.

He would be brought forward before the whole of the inhabitants, and be held up as an example for the future. It may be regretted that it was not attempted to punish him for the narrowness of his views and actions, which none of the inhabitants of the town have alluded to, whether they are living here, or abroad, and which, once again, is a matter of serious regret, and a warning to all who have the power of doing good.
