

HSI Limerick Business School launches its new state of the art website

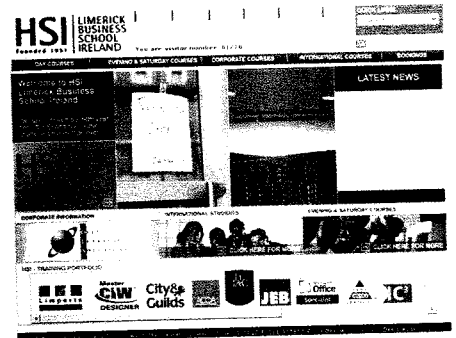

Pictured at the launch are Caoimhe Cullinane Operations manager, Alice O'Shanugnesy Evening Course Coordinator and Brenda Mulcahy, Business Development and Customer Service Executive, Mary O'Brien Assistant Academic Co-Coordinator and Alan Real I.T Manager.

HSI Limerick Business School launched their new state of the art web site this week. The new website provides a full listing of all full time, part time and corporate courses offered by HSI Limerick Business School.

HSI Limerick Business School has been delivering part-time courses in Business Studies, Interior Design, Media Studies, Office Administration, Psychology and I.T related courses for many years. HSI is primarily renowned for its employment focused office administration day programmes, which commenced with the establishment of the business school by its founder Nora McNamara in 1951.

According to Alice O'Shaughnessy, Evening & Saturday Course Co-ordinator, "part-time courses are ideal for those individuals who are interested in getting back into education, while trying to balance work and family life in the process. Programmes are generally delivered one or two evenings a week, while some programmes are also available Saturday mornings". Last year HSI Limerick Business School had over 650 part-time students, "a lot of our students have stud-

ied with us in the past and are returning to upgrade their existing skills...with a high number of our students receiving funding from their employers, FAS, Enterprise Boards and Community Employment Schemes".

Over 50,000 students have passed through HSI Limerick Business School since it was founded. Past pupils of HSI Limerick Business School are also encouraged to keep in touch with HSI recruitment services. Call 061 31 78 22 for further information or log on to www.hsi.ie
