

Estate Maps of County Limerick

The following started life as a simple listing of estate maps of county Limerick, but has evolved to include sale catalogues, rentals etc. We are working on including all the names of tenants, lessees etc. and hope this will make it an important resource especially for those researching their family history. There are more maps yet to be found. If anybody using this list knows of other maps then I am happy to add them, providing a proper reference is given. Please contact

Email: museum@limerickcity.ie

All entries that can be viewed online have been linked to the relevant sites. If there is no link the map or rental can only be viewed at the relevant institution.

I intend to update this site as and when new information becomes available, so will keep a log of changes on this page. Abbreviations used in the text can be found on the last page.

N.B. For accessing files from the Limerick City Archives (LCA) it will be necessary to go to their website and download the djVU programme to enable you to view.
