...attended a ball given at  
Halifax in his honour. The Prince was received with  
great enthusiasm at the towns on the route from  
Picton.

According to intelligence received at New York,  
the Indians are committing terrible depredations in  
Senora.

A dreadful fight took place on Tuesday night at  
Mexborough, Sheffield, between unionists and non-  
unionists. The new Union Inn, where a battle scene  
occurred, was completely wrecked. Several non-union  
men were seriously injured, and had to be conveyed  
to their homes. The whole of the neighbourhood is  
in a very excited and unsettled state.

Sir John Craven Carden, of Templemore Abbey,  
though urgently called on, is unwilling to come  
forward as a candidate for the county Tipperary, on  
the Liberal interest. A requisition has been signed  
and forwarded to Captain Massey Dawson, requesting  
him to contest the representation of the county.

A telegram in the *Globe* says that the Channel  
Squadron, with the Admiralty flag flying on board the  
Agincourt, has arrived at Gibraltar.

**THE NONPAREIL,**

OR  
**STARLIGHT OIL,**

Chemically prepared and Guaranteed Non-Explosive,  
and almost free from smell,

BY  
**J. P. EVANS & Co.,**  
48, Thomas street.

**A**FTER an experience of 40 years, and during that  
period, having given the Nobility, Gentry, and  
our Friends in general, satisfaction in our dealings  
with them, we feel great confidence in coming for-  
ward and asking a fair trial for our new Oil for this  
season, which we fully expect will surpass anything  
offered the public, for cleanliness and its illuminating  
powers.

For the last six years we have been trying Chemi-  
cal tests to produce certain effects in the combustion  
of the Oil, as also, that of the wick—and last winter  
our Saratoga Oil was such a great success, we deter-  
mined to proceed further, and now offer the Nonpareil,  
believing it cannot be improved on.

We have now five different kinds of the Hydro  
Carbon Oils to offer our friends, namely:—

*The Nonpareil, Benzoline, Saratoga, Photogen,  
and Paraffine,*

and each Oil, according to its class, is of the purest  
standard, and will burn with perfect safety in the  
Paraffine and Photogen Lamps (or the Cheapest  
Mineral Oil Lamps).

We are also large holders of Colza and all other  
Oils, &c.
