STARLIGHT OIL

Chemically prepared and Guaranteed Non-Explosive,
and almost free from smell,
BY

J. P. EVANS & Co.,
48, Thomas street.

AFTER an experience of 40 years, and during that
period, having given the Nobility, Gentry, and
our Friends in general, satisfaction in our dealings
with them, we feel great confidence in coming for-
ward and asking a fair trial for our new Oil for this
season, which we fully expect will surpass anything
offered the public, for cleanliness and its illuminating
powers.

For the last six years we have been trying Chemi-
cal tests to produce certain effects in the combustion
of the Oil, as also, that of the wick, and last winter
our Saratoga Oil was such a great success, we deter-
mined to proceed further, and now offer the Nonpa-
reil, believing it cannot be improved on.

We have now five different kinds of the Hydro
Carbon Oils to offer our friends, namely:—

The Nonpareil, Benzoline, Saratoga, Photogen,
and Paraffine,

and each Oil, according to its class, is of the purest
standard, and will burn with perfect safety in the
Paraffine and Photogen Lamps (or the Cheapest
Mineral Oil Lamps).

We are also large holders of Colza and all other
Oils, &c.

THE OIL STORES, LIMERICK.
