### LIMERICK LEADER. MONDAY EVENING, MARCH IS.

TRISH WEEK IN LIMERICK Fun some years past it has been the wise and patriotic practice all over Ireland to mark the week in which the National Fastival occurs by a display of Irish goods in the shop windows. That laudable custom, we are glad to see, is being followed in Limerick on the present oc easion as usual. In the monster houses and in several of the other establishments in the city fine collections of home-produced articles were on view to rlay and will continue to be exhibited up to closing hour on next Saturday. The importance of thus bringing before the public in a definite way the variety and excellenes of the products wrought by Irish workers | land can hardly be exaggerated. To enable the people to see what their own country can turn out not only advertises the high quality of the manufactures show but tends to btimulate the men woman of Ireland to a duty regarding which they appear to be regrettably remiss and in different. The good purpose intended to be achieved by the special displays of Irish goods will not be realised unless the general public co-operate with the traders. The consumers | Division at the front. should do their part in the matter by as far a possible confining their purchases to goods made in their own land. It would be well indeed, if they did this the whole year round but it is highly desirable that they do so at least during the week in which St Patrick's Day happens to fall. The general observance of this policy, as Mr J L Fawsir Scoretary of the Cork Industrial De velopment Association, points out in the course of an appeal on the subject, will mean that our professions of patriotism are real and sincere, and that we are prepared to give practical testimony to the love of country, and race within us. It will mean, also, as the same. writer goes on to say, a great and much-needed guaranteed at moderate prices. > the Senior Hurling Championship. The game was most exciting and was one of the best exhibitions of the national pastime, witnessed in the Markets Field for a long time. Unfortunately the match was not finished as Caherline left the field about fifteen minutes after the re-start owing to a goal being allowed to Fedamora. Caherline contended that the score was only a point, but the umpires were unantmous in deciding that goal had been sent in, and so the referee had no option but allow the major score. The effectators were much discipposition at the action of the Caherline team in declining to fin ish the game, as it deprived them of the oppor tunity of seeing a really first class hurling encounter brought to a close. The teams equalised the scores about three times during the progress of the game, and when Caherline left the field the referee, Mr Jim Ryan, awarded the match to Fedamore and declared ther

PROPOSED RETRENCH-MENTS

At to day's meeting of the Limerick Harbour Board, Mr J P Goodbody presiding, the minutes of the meeting of the Whole House Commit-tee, held on Friday, 18th February, were sub-mitted, and showed that the committee decided to point out that a saving could be made in the lighting of £200, maintenance of plant £100, maintenance of diving berg: £100, by reducing the police by two £120, in miscel-laneous £100, and that the revenue could be increased by a sum estimated at £350 by charging dues at the higher scale on goods imported under that rate at present. These items would realise £1,070, leaving a deficit of £1.659. This, the committee were of opinion, may be met by the Board arranging with the Board of Public Works and the Public Works I can Commissioners, to defer calling for the payment of the principal of their loans until after the war, if necessary. The Committee called attention to the fact that the tonnage dues on coasting vessels can be increased by 2d per ton and the Dock ducs by Is per ton, but in view of the difficulty that at present exists of inducing these vessels to charter for this port the committee made no recommendation on the matter. They also pointed out that dock dues are not charged on steamers trading on the river and using the floating dock in accordance with the Board's

remain is the custody of the architects, and
shall be produced by them at their office as
when required by the employer or by the contractor." Mr Hickman has now inserted a
clause in the conditions of contract as follows:

"The contract drawings and specification shall
remain in the custody of the Resident Medical
Superintendent of the Asylum, and shall be
produced by him at his office as and when required by the contractor." There is no meation
in this clause that the Resident Medical Superintendent need produce these documents as
and when required by the employer or architects. On the 2nd November, 1915, I wrote to Mr
Hickman stating that Dr O'Mara, the Resident
Medical Superintendent, informed me he was
directed by him (Mr Hickman) to keep the
drawings, specifications and bill of quaptities
under his control. I pointed out to Mr Hickman that there must be some mistake in this
procedure, as the architect always worked procedure, as the architect always worked from these several documents so that no mistake could arise. I also stated that I had copies of agreements of the Dublin Corporation, National Bank and other public bodies, Lunacy the Resident Medical Superintendent is bound to keep the drawings, original specification and bill of quantities to the Acrium. then wrote to the Inspectors of Lunatio Asylums to clearly define my responsibilities as architect should any dispute hereafter arise. stating Mr Hickman's opinion and the general ings, etc, this question, as raised by me, was pulled up and destroyed on the oth January outside their province, being one in which they had no power to interfere. However, they added that there were no Regulations made b

the Inspectors on the subject, the only Regu lations for the management of the Asylum being those framed by the Committee of Management with the approval of the Lord: Lieutenant, Nos IV to VIII of which deal with contracts. Dr O'Mara informed me that the above clauses did not refer to the present cases, and I am further informed that these clauses only refer to contracts relating to maintenance, clothing and lodging, or any other purpose relating to the general management of the patients. On the 18th inst I again wrote to Mr Hickman asking spectors of Lunatics the Resident Medical etc, and that I would be glad if he would let me have a copy of such regulations, or where I may procure same or the clauses relating to same. Mr Hickman replied referring me to the Resident Medical Superintendent. He no doubt that the Resident Medical tody of the documents I referred to. My letter of the 18th inst is the one referred to by Mr Hickman and which was read by Dr O'Mara at the last meeting. Mr Hickman also stated that In the time of the late Mr Frank O'Connor, architect, the contract, bond specification and not responsible for what happened in Mr

## BeechamsPills may be relied upon, at all times, to exercise a tonic, cleansing, healing influence . upon the digestive organs. A sensible use of this well-known specific is generally all that is needed to relieve and remove those disorders of the stomach liver and bowels, which are always associated with dyspepsia in any form. Beecham's Pills

are unfailing as a corrective and invaluable as a safe stimulant of that important organ, the liver, upon the efficient action of which so much depends. As a cure for constipation and for removing its attendant discomforts and dangers there is no more reliable remedy. In fact, as an aid to health generally, the judicious use of Beecham's Pills is strongly recommended. They are

Sold everywhere in boxes, price I/I) (56 pills) & 2/9 (168 pills.)
