Introduction

The Housing and Social Policy Department of Limerick City Council wish to establish a panel of suitably qualified and experienced Plumbing & Gas Heating Contractors, for the provision of a variety of plumbing and gas heating services to Local Authority housing, over the lifetime of the panel. The proposed panel is intended to commence in early 2012 and run for a 3 year timeframe (2012 – 2014). Initially, a 12 month probationary period will apply for all applicants appointed to the panel.

The Procurement

The panel will be selected on the basis of a competitive tendering process in accordance with Public Procurement Rules. Tenders, together with submissions, will be assessed on the basis of the Most Economically Advantageous Tender (MEAT) criteria assessment. The MEAT criteria assessment is set out in further detail below. Candidate contractors will be selected for the panel on the basis of the overall ranking of their tender submission. Limerick City Council intends to select a minimum of three and a maximum of five contractors for inclusion on this panel.

GENERAL INSTRUCTIONS TO TENDERERS

EVALUATION CRITERIA AND PANEL SELECTION

The evaluation criteria (MEAT) to be used for evaluating the tender submissions are set out in this section.

Some of these are simple Pass/Fail criteria – these requirements must be met in full, and, if passed, have no further role in calculating the candidate’s overall score. If failed, the applicant is eliminated from the tender process.

If a pass is registered for all criteria, then criteria numbers 8 - 12 are qualitatively evaluated; each such criteria has a weighting of marks that is used to calculate the candidate’s overall score, as indicated in the table below.

Marking Scheme:

For each criterion, candidates shall write **YES** in the box under **Response** to indicate that the required information has been provided.

Y equals **YES**; N equals **NO**; N/A equals **NOT APPLICABLE**; **XX%** equals **% Weighting**.
