PUBLIC FREE LIBRARY.

TO BOOKBINDERS, &c.
 Free Library Committee will, at its
 ily meeting to be held at four
 Thursday, the 30th November inst.,
 nders, for the binding and repairing,
 k. any books requiring same that are
 in the Free Library, Lower Glent-

tion. Each section of the exhibition is classified under different headings, with printed programmes and detailed sub-sections. Any of these can be obtained from Mr. Arthur Scriven, Hon. Executive Commissioner, Oxford Court, Cannon-street, E.C., by those interested. It is pointed out that the British Government has given a grant of £10,000 to the exhibition, and that this has undoubtedly made a very favourable impression in Italy. It is also pointed out that British goods of the best quality are still preferred in Italy to any others. The opportunity afforded by this exhibition of comparison with the manufacturers, and sometimes imitations, of other countries should not be unfavourable to British industry. One important point is specially insisted on. That is that the opening for British industries in the Italian market will be best found in goods of the highest quality and machinery of the latest type. Italy is now entering on a period of great prosperity. The purchasing power has vastly increased. The Italian market should not be neglected. Upon even conditions as to price, friendly tradition and sentiment give the assurance that British traders will be under no disadvantage.

A REMARKABLE BABY.

Annie Elizabeth, the nine weeks old daughter of Edward and Sarah Westwood, who reside in the Corngreaves Road, Cradley Heath, is exciting considerable attention, owing to her diminutive size. At birth the infant, it is stated, weighed 15oz., and upon being weighed a day or two ago with clothing she only scaled 3lb. 5oz. She is reported to be fully developed, and straight of limb although she measures only 13 inches in height. A large number of people have already visited the Westwoods' house to see the dwarf, and her progress and development is being watched with considerable interest by local doctors. It is stated that the parents have already been offered a large sum of money by a representative of Messrs. Barnum and Bailey for the custody of the child, but, to their credit be it said, the offer has been declined.
