

CHRISTMAS ON THE L

Irish Wire

Irish Wire Products was founded in 1935. The company started as a manufacturer of wire and nails and soon became an important player on the European market. The company's value to the city of Limerick soon became apparent where it was affectionately known as 'The Wire', as it became one of the most important employers in the city.

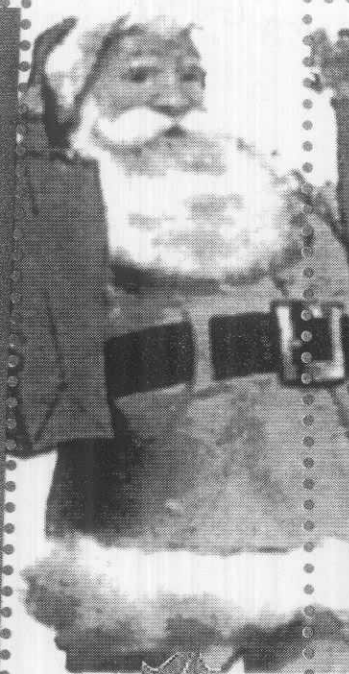

These days the company no longer retains its manufacturing facilities. As a leading importer of nails, screws, wire and other building products, Irish Wire Products has now firmly established its position as the premier distributor of Fasteners, Fixings and related products to the building trade nationwide.

The company has since added to its extensive range by opening a Timber Pannelling Centre in the mid

eighties. Catering for all your kitchen material needs, Irish Wire products distributes a wide catalogue of products from chipboard, MDF, worktops and related products to the building trade nationwide.

IWP firmly believes in the principle of ensuring the highest quality in terms of both products and service, at the most competitive prices. The company will refuse to compromise on these principles, insisting on the best there is to offer. With our wide range of quality recognized brand names, IWP can look forward to the future with great confidence.

To provide and achieve these standards we depend on our outstanding staff and working structures. So from all at 'The Wire' we wish to say 'Thank You' as we look forward to many more successful years
