DEATH OF MR MICHAEL GERAGHTY.

The death, which we announce with much regret, took place at his residence, Mount Gerald, O'Connell Avenue, Limerick, yesterday, of Mr. Michael Geraghty. The deceased gentleman had attained the ripe age of 74 years, and had only been ailing a week or so. He was a well-known and highly respected citizen, and for half a century was connected with the firm of J. Quinn & Co., of which he was a director. In that capacity his business capabilities were greatly appreciated, and his counsel was often sought upon in the direction of the firm's enterprise. In private life the late Mr. Geraghty held the affection of a large circle of friends, who will learn of his demise with regret, and with the citizens generally will extend sympathy to his family in their sorrow. The remains will be taken to St. Michael's parish church to-morrow evening at 7 o'clock, and the funeral will leave for Mount St. Lawrence Cemetery after High Mass at 10 o'clock on Thursday.

COAL DECONTROL.

The "Daily Telegraph" Parliamentary Correspondent writes:—It will be probably for some time in the course of a few days coal-owners and miners' representatives will be invited to confer with the Government on the question of financial decontrol of the coal industry. Control is provided for until August 31st, but the Government is about to embark upon negotiations with the object of an early termination of the arrangement.

OPENING OF PARLIAMENT.

The King's Speech.

THE STATE OF IRELAND

Still Caused Him Distress.

The New Act—Country Asked to Work It.

SPECIAL TELEGRAM.

London, Tuesday.
The third session of Parliament was opened to-day by His Majesty the King in person.

The Royal procession started from Buckingham Palace at 11.25 a.m., by way of the Mall, Horse Guards, Parliament Street, and Parliament Square to the Victoria Tower. The Royal coach was drawn by six black horses, and there were five other coaches, drawn by bays, bearing officers and attendants of the Royal Household.

The Prince of Wales left York House a little in advance of the King and Queen.

Forthcoming International Conference.

The King's Speech stated a Conference which will be early held in London will be attended by the Allies, and representatives of Germany and Turkey, and hope is expressed that the Conference will assist in re-establishing concord in Europe, and tranquillity in the Near East. It is hoped the Prime Ministers of the Overseas Dominions and representatives of India will attend the Imperial Conference in London this year.

Government and Economy.

The Estimates for Services will reflect the determination of the Government to reduce expenditure to the lowest level consistent with the well-being of the Empire. The war has left liabilities which can only be met by heavy taxation, but it is imperative in the interest of an early revival of trade and industry that this burden shall be reduced to the utmost.

The Irish Situation.

The King stated that the Irish situation still caused him distress. A misguided section of the Irish people persist in resorting to methods of criminal violence, with the object of establishing an independent republic. Neither Irish unity nor Irish self-government can be attained by this means. Arrangements for bringing into force the Government of Ireland Act are now well advanced, and he earnestly trusted that in the near future the majority of the people will show their determination to repudiate violence and to work an Act which confers on them responsibilities of self-government, and provides machinery whereby they can attain to Irish unity by constitutional means.

Unemployment Problem.

Referring to the pressing problem of unemployment, the speech says—This may be alleviated but cannot be cured by legislative means. It is receiving the constant and anxious attention of Ministers, with the object both of reviving trade and assisting those who are unemployed. Parliament will be asked to pass a Bill extending the provision which is made under the Unemployment Insurance Act.

Key Industries.

A measure will also be introduced to deal with the safeguarding of essential key industries, and with certain aspects of unfair and normal industrial competition. The speech hopes these efforts will be seconded by co-operation between employers and employed; for it is through this co-operation that the early solution of the problem is to be found.

Coal Control.

The forthcoming removal of coal control will be followed by the complete restoration of the coal industry to its natural condition of freedom.

Other Bills.

Bills will be submitted for the reorganisation of the British railways, for the completion of Irish Land Purchase, and for facilitating Church Union in Scotland. A measure will be presented dealing with the sale of alcohol, in the light of experience gained during the war. Ministers trust the work of the Committee now examining the returns of the Second Chamber will be finished in time to permit of proposals being submitted to Parliament during the present Session.

Russia.

The speech also hopes the negotiations for the conclusion of a trade agreement with Russia will be brought to a successful conclusion.

Egypt.

The policy of the Government regarding Egypt will be laid before Parliament.

MINISTERIAL CHANGES.

The Press Association is officially informed that the King has been graciously pleased to accept the following resignations:—The resignation of the Rt. Hon. the Viscount Milner, G.C.B., G.C.M.G., as Secretary of State for the Colonies; the resignation of the Rt. Hon. Walter H. Long, M.P., as First Lord of the Admiralty, on account of ill-health.
(2) To approve of the following appointments:—The Rt. Hon. W. L. Spencer Churchill, M.P., to be Secretary of State for the Colonies in the room of Lord Milner; the Rt. Hon. Sir Laming Worthington Evans, Bart., M.P., to be Secretary of State for War, in succession to the Rt. Hon. W. L. Spencer Churchill; the Rt. Hon. Lord Lee of Fareham, C.B., C.V.O., to be First Lord of the Admiralty, in the room of Mr. Arthur Griffith-Boscawen, M.P.; the Rt. Hon. Arthur Griffith-Boscawen, M.P., to be Secretary of State for War, in succession to the Rt. Hon. Lord Lee of Fareham.
The appointment of Mr. Arthur Griffith-Boscawen as Minister of Agriculture and Fisheries will necessitate his resigning his seat in the House of Commons. Mr. Arthur Griffith-Boscawen was returned with a majority of 3,080 over his Labour opponent.

MILITARY ARREST.

Milford-Malbay, Monday.—On Saturday a large number of policemen raided the house of Mr. Patrick Howe, Knocknasharra, Milford-Malbay. They closely searched the house, out-fences, hay and turf. They took away an old Caroline bell decorated with ribbons, used by young men as "stars" in the National League; also a hammer, and a saw in the National League. They subsequently placed his son, Michael, under arrest. It is stated that an Arbitration Court summons was issued in his possession. Young Howe was detained in the police barracks during the night, and on Sunday was released after a heavy military and police guard to the military headquarters at Rineglenny.

HOCKEY—LADIES FINAL.

Western defeated Cork in the final of the ladies' hockey. Two goals to nil. The match was played in a down-pour.

LIMERICK HARBOUR BOARD.

LIMERICK.

House Burned.

A Kilmallock message of Sunday night says:—So far there have been no developments in the report from Kilmallock in connection with the burning of an aeroplane and the kidnapping of the observer Mackey, although the 26 hours' warning to the traders expired on Saturday evening. Rumours were current in the district to-day that the missing aeroplane had turned up, but there is no confirmation of the report in the Kilmallock area.

On Friday evening, about 3 p.m., a fleet of about one dozen aeroplanes hovered over the town and district for a considerable time. Their appearance over this Kilmallock district caused great excitement and alarm. Rockets were dropped, also lights being flashed. It is reported that Mackey was not returned within 48 hours there would be no release. There were also reports that the aeroplanes were several in number, discharged from the different machines and also several bomb explosions, accompanied by rifle fire, to the north-east of the town. It was soon noticed that Mackey's aeroplane, the home of the late Patrick Mackey, shot down near Kilmallock, was in the hands of the traders. The house was a smoking heap of debris. The house was occupied by a sister and brother, the latter being presently "on the run."

On Saturday evening a number of traders in Kilmallock got notice to clear out as their houses were to be destroyed in case the missing aviator is returned.

Kidnapped Airman.

Released Yesterday.

A Dublin Press Association telegram of last night says:—The observer named Mackey, captured by armed men who destroyed an aeroplane after a forced descent at Ballinacorney on Thursday, was released yesterday. The aviator, who was reported to be a member of the R.F.C., was released by the Dublin, Monday. It was officially stated at the Castle this afternoon that the airman named Mackey, who was captured on Thursday after a forced descent of the aeroplane, in which he was observed, had been released, and had reported to the Dublin, Monday. No details of Mackey's experiences during his captivity are forthcoming.

IRISH INCIDENTS.

Two Civilians Killed in Dublin.

Police Officer Fatally Wounded.

Constable Shot Dead.

An attempt was made to ambush troops at Kilmallock, near Dublin, on Saturday night. Two civilians were killed in connection with it, and a police officer was fatally wounded. A police officer was ambushed near Ballybrannigan on Sunday morning and Constable Lynch was mortally wounded.

In an ambush in the town of Carrickmacross on Friday night two police officers were wounded. Two men have been arrested.

Constable Patrick Walsh was shot dead when about to enter the Charleville police barracks on Saturday night.

Six houses were destroyed in the Glengole district of County Tipperary on Saturday as an official report of the killing of two soldiers at New Berningham.

Ferries were on Sunday invaded by military, and a number of men and boys in the district took place. A number of young men in Midleton have been served with notices by the R.I.C., requiring them to quit the town at once, for a time, for being in the town.

Some men in a passing vehicle threw a bomb last night at the Dublin City Hall, which is now occupied by the military.

SOCIETY OF ST. VINCENT DE PAUL.

Limerick Branch.

The quarterly meeting of the Limerick Branch of the Society of St. Vincent de Paul was held on Sunday afternoon at O'Connell House, Harbourside, and was a large attendance of members.

Reports regarding the working of the Branch were read. A report from the Hon. Secretary of the Fuel Fund showed that 175 tons of coal had been distributed amongst the poor who were suffering from the winter. In view of the increase in the amounts payable by the Government to the coal owners, the Branch has decided to keep the river open to effective navigation. He suggested that the Harbour Engineer should be asked to report on the matter, also Mr. Keynolds, the captain of the dredger.

GERMANY'S INDEMNITY.

French Explanation of the Proposed 12 p.c. Tax.

Paris, Sunday.—It has hitherto been believed mistakenly in many quarters that the 12 per cent. of the total of Germany's exports to be paid to the Allies in addition to the fixed annuity was meant to be a tax on exports, and this idea has been encouraged by a number of the German commercial houses, who have issued circulars to their clients abroad referring to it as a reason for the rise in their prices. The "Daily News," immediately upon the break up of the Paris conference, drew attention to the error, and called for an explanation, and authoritative statement. Mr. Lohr, Minister for the devastated regions, has now made the matter clear. "It was never," he said, "a question of making Germany impose a tax upon her exports. It is simply a method of calculation to arrive at the amount of the variable indemnity, which is to depend on the economic development of the country, and any other interpretation is wrong."—"Daily News" correspondent.

FUNERAL OF MR M. SHEAHAN.

On Sunday the interment of the late Mr. Michael Sheahan, hay merchant, Limerick, took place in the cemetery at St. Michael's Church, Limerick. The deceased was removed from Lower Mall, street on Saturday evening to St. Michael's Parish Church, where he rested overnight. On Sunday at half-past one the funeral took place. It was largely attended by the citizens of every class, and testified to the esteem and respect which the deceased gentleman was held, and the sympathy felt for his family in the loss they have sustained by the death of an exemplary father.

LIMERICK ASYLUM AND UNION DEMANDS.

The Corporation, at the meeting on Thursday night, will come under consideration the demands and estimates of the Limerick Board of Guardians and the District Lunatic Asylum Committee for the year ending 31st March, 1922. The demand made by the former in respect of the city's contribution to the cost of the Asylum, was £27,233 16s. 2d., as compared with £27,735 11s. 2d. for the current year, or an increase of £502 15s. 6d. which is equivalent to an additional impost of 11d. in the pound on the city's rateable valuation. KIDNAPPED AIRMAN IN EAST LIMERICK.

House Burned.

A Kilmallock message of Sunday night says:—So far there have been no developments in the report from Kilmallock in connection with the burning of an aeroplane and the kidnapping of the observer Mackey, although the 26 hours' warning to the traders expired on Saturday evening. Rumours were current in the district to-day that the missing aeroplane had turned up, but there is no confirmation of the report in the Kilmallock area.

On Friday evening, about 3 p.m., a fleet of about one dozen aeroplanes hovered over the town and district for a considerable time. Their appearance over this Kilmallock district caused great excitement and alarm. Rockets were dropped, also lights being flashed. It is reported that Mackey was not returned within 48 hours there would be no release. There were also reports that the aeroplanes were several in number, discharged from the different machines and also several bomb explosions, accompanied by rifle fire, to the north-east of the town. It was soon noticed that Mackey's aeroplane, the home of the late Patrick Mackey, shot down near Kilmallock, was in the hands of the traders. The house was a smoking heap of debris. The house was occupied by a sister and brother, the latter being presently "on the run."

On Saturday evening a number of traders in Kilmallock got notice to clear out as their houses were to be destroyed in case the missing aviator is returned.

Kidnapped Airman.

Released Yesterday.

A Dublin Press Association telegram of last night says:—The observer named Mackey, captured by armed men who destroyed an aeroplane after a forced descent at Ballinacorney on Thursday, was released yesterday. The aviator, who was reported to be a member of the R.F.C., was released by the Dublin, Monday. It was officially stated at the Castle this afternoon that the airman named Mackey, who was captured on Thursday after a forced descent of the aeroplane, in which he was observed, had been released, and had reported to the Dublin, Monday. No details of Mackey's experiences during his captivity are forthcoming.

IRISH INCIDENTS.

Two Civilians Killed in Dublin.

Police Officer Fatally Wounded.

Constable Shot Dead.

An attempt was made to ambush troops at Kilmallock, near Dublin, on Saturday night. Two civilians were killed in connection with it, and a police officer was fatally wounded. A police officer was ambushed near Ballybrannigan on Sunday morning and Constable Lynch was mortally wounded.

In an ambush in the town of Carrickmacross on Friday night two police officers were wounded. Two men have been arrested.

Constable Patrick Walsh was shot dead when about to enter the Charleville police barracks on Saturday night.

Six houses were destroyed in the Glengole district of County Tipperary on Saturday as an official report of the killing of two soldiers at New Berningham.

Ferries were on Sunday invaded by military, and a number of men and boys in the district took place. A number of young men in Midleton have been served with notices by the R.I.C., requiring them to quit the town at once, for a time, for being in the town.

Some men in a passing vehicle threw a bomb last night at the Dublin City Hall, which is now occupied by the military.

SOCIETY OF ST. VINCENT DE PAUL.

Limerick Branch.

The quarterly meeting of the Limerick Branch of the Society of St. Vincent de Paul was held on Sunday afternoon at O'Connell House, Harbourside, and was a large attendance of members.

Reports regarding the working of the Branch were read. A report from the Hon. Secretary of the Fuel Fund showed that 175 tons of coal had been distributed amongst the poor who were suffering from the winter. In view of the increase in the amounts payable by the Government to the coal owners, the Branch has decided to keep the river open to effective navigation. He suggested that the Harbour Engineer should be asked to report on the matter, also Mr. Keynolds, the captain of the dredger.

GERMANY'S INDEMNITY.

French Explanation of the Proposed 12 p.c. Tax.

Paris, Sunday.—It has hitherto been believed mistakenly in many quarters that the 12 per cent. of the total of Germany's exports to be paid to the Allies in addition to the fixed annuity was meant to be a tax on exports, and this idea has been encouraged by a number of the German commercial houses, who have issued circulars to their clients abroad referring to it as a reason for the rise in their prices. The "Daily News," immediately upon the break up of the Paris conference, drew attention to the error, and called for an explanation, and authoritative statement. Mr. Lohr, Minister for the devastated regions, has now made the matter clear. "It was never," he said, "a question of making Germany impose a tax upon her exports. It is simply a method of calculation to arrive at the amount of the variable indemnity, which is to depend on the economic development of the country, and any other interpretation is wrong."—"Daily News" correspondent.

FUNERAL OF MR M. SHEAHAN.

On Sunday the interment of the late Mr. Michael Sheahan, hay merchant, Limerick, took place in the cemetery at St. Michael's Church, Limerick. The deceased was removed from Lower Mall, street on Saturday evening to St. Michael's Parish Church, where he rested overnight. On Sunday at half-past one the funeral took place. It was largely attended by the citizens of every class, and testified to the esteem and respect which the deceased gentleman was held, and the sympathy felt for his family in the loss they have sustained by the death of an exemplary father.

NOTICE TO ADVERTISERS.

THE MAIL SERVICE.

The question of the acceleration of the mail service has long been before the public, but as yet the matter remains absolutely in abeyance so far as real and essential improvements are concerned. The Limerick Chamber of Commerce and the Harbour Board have again and again urged action on the Post Office authorities but without result. Yesterday the subject was once more brought under the notice of the Harbour Board by Mr. L. Morley who proposed a resolution calling on the Postmaster-General to appoint a Commission for the purpose of investigating and reporting "on the serious position created by the inefficient mail service both to and from Ireland and to make recommendations to the Government." It was further suggested that the Commission should consist of a member from the Chambers of Commerce and Port Authorities of Dublin, Belfast, Cork, Limerick, Waterford, Tralee, Galway, Sligo, and Londonderry. Such a Commission would be representative of the commercial interests of the country whose prosperity is so inseparably linked up with an efficient mail service, and so it is to be hoped that the Government will see its way to appoint this Commission who without doubt would be in a position to make valuable suggestions to the Powers that be. There should be no difficulty whatever in accelerating the mail service from Dublin to the South of Ireland and vice versa. Anterior to the war the mail train used to leave Dublin at 6.40 a.m. arriving in Limerick at 9.55. At present the train is due to reappear at 11.15, and after that a considerable time must necessarily elapse before the delivery begins in the heart of the city to say nothing of outlying districts. The result is that merchants have little or no time to catch the 2 p.m. post (with ordinary stamp) in order to avail themselves of the upward mail leaving at 2.45. Under such conditions business activities are severely handicapped, and it is high time that something should be done by the Post Office to remedy the grievance which for so long has been complained of in Limerick and Cork, and other centres as well. One way of giving improved postal facilities would be by starting the train from Kingsbridge earlier than at present, and on the other hand giving a later up-train service than at present exists. If this were done we should return to something like pre-war conditions, and there ought to be no reason why the public should not be inconvenienced to that extent. The war has passed away for more than two years, yet the mail service still lags behind the pre-war time table, though the railway and steamship companies controlling the traffic are accelerating their services, and have done everything possible to expedite mail deliveries. The Post Office is, therefore, looked to to obviate delays, and provide an efficient mail service. It is some satisfaction to notice that an "Independent" representative who made an inquiry at the Secretary's office, G. P. O., Dublin, respecting the Belfast service was informed that the "whole question is engaging attention," in order to see what may be done. It was pointed out, the paper adds, that Cork is affected even to a worse extent than Belfast, as the English mails do not leave till 7.35 a.m., "whereas the train could leave with the English mails at 6.45 if the Post Office permitted it." There is thus clearly room for acceleration, a matter that would benefit Limerick as well as Cork. It is to be hoped that it will come to the south as well as to the north. Vigorous efforts are being made in Belfast on the matter of reform in connection with the Irish mail service. The south has been no less active for a considerable time past, and we feel assured that the latest action of the Limerick Harbour Board—the practical resolution it yesterday passed—will meet with general approval and hearty co-operation from the other centres that are interested in this vital question.

OUT AND ABOUT.

A large number of unemployed ex-servicemen in Carrick-on-Suir have sent a strongly worded demand to the Ministry of Labour for "work, not charity."
The Limerick No. 1 District Council estimate for the ensuing year, which has been adopted, is for £7,518, compared with £8,504 for 1920, a reduction of £986 or 24 in the £.

THE BLOCKADE IN KERRY.

A week ago it was announced that a large area West Kerry between Tralee and Dingle had been surrounded by troops, and that all communication between it and outside districts had been severed. Since then nothing has transpired as to what is occurring within the cordons, and it is generally believed that the military are carrying out a search for persons who are wanted, and are believed to be hiding in the district.

Yesterday Mr. J. T. O'Farrell, the Irish Secretary of the Railway Clerks' Association, received the following telegram at his office in Dublin from a stationmaster on the Tralee and Dingle Line in West Kerry:—

"Dietary blockade for past week. Supplies exhausted. Women and children on verge of starvation."

Mr. O'Farrell telegraphed to Mr. Henderson, Mr. Widdowson, and Mr. Bromley, pointing out the state of affairs, in which a number of railwaymen are involved, and asking that some steps might be taken with a view to saving from starvation suffering women and children.

THE MILITARY STATEMENT.

Last night the General Headquarters in Dublin made the following announcement:—"There is no truth in the statement that the inhabitants of some parts of Kerry are on the verge of starvation. The Crown forces are not interfering with law-abiding inhabitants, and there is no embargo on the import or purchase of foodstuffs, which are plentiful in the area."

MR ASQUITH ON PREMIER.

Mr. Asquith, re-opening the National Liberal Club last night, said the Premier, at the Constitutional Club, held up to oblige those who denounced reprisals in Ireland, and declared that the honour of Liberalism would not be put at risk with that faction. He thought it would be a good idea to learn that the honour of Liberalism had to be vindicated on a Tory platform against the vast majority of Liberals. (Laughter.) What the world wanted was, at home restored confidence, well ordered finance, clean administration in Ireland, a just and a permanent settlement, and over the whole world such a reconstruction of the whole international system as will be worthy of the sacrifice and the efforts of the war.

CANADIAN CATTLE EMBARGO DEFENDED.

The Minister of Agriculture, defending the embargo on the admission of Canadian cattle, says there is no doubt if the ports were open to stores from overseas farmers would lose confidence in the prospect of making money by rearing calves, and thousands now saved would go to the butcher. Supplies of home-grown beef would thus be endangered, and what was more serious, the milk supply of the years to come would be seriously reduced. The number of stores Canada would send would not make up for the number home farmers would fail to rear.
