

NOTICE TO ADVERTISERS

In consequence of the earlier departure of the evening train from Limerick, and the consequent delay in posting to the Limerick Post Office, it is requested that all advertisements be sent in at least one hour before the closing time of the office, which will be 5.30 p.m. on Tuesday, June 21, 1921.

THE LIMERICK CHRONICLE

ESTABLISHED 1766  
TUESDAY, JUNE 21, 1921

THE COAL SITUATION.

The result of the miners' ballot has come with dismay to any notion of surprise on the public, and in no quarter at the present moment can it be stated with any degree of certainty what the next step in the situation may be. There was over a two-thirds majority for a prolongation of the struggle now in its twelfth week but on the other hand over 330,000 miners did not vote at all. It is not too much to assume, therefore, that a very large section of the men is in favour of peace. But the position as it stands is a very peculiar and a complicated one. The miners have officially elected to continue the strike with all the untold loss that it has involved to themselves and their families, and to trade and industry. Mr Lloyd George, on the result of the ballot being communicated to him, wrote that "the longer the stoppage continues the greater is the loss to the resources of the Exchequer, and consequently the less able are we to give assistance to tide the mining industry over its present troubles." He accordingly announced that the Government offer of ten millions would end last Sunday night. The prospects of peace therefore seem to be as remote as ever, though as suggested by a London correspondent if a swift move were made to bring about an agreement the Government might be induced to reconsider their action which however they would not be likely to do if the situation were allowed to drift for an indefinite period. The Government threat to withdraw the subsidy has been followed by a retort from the Miners Executive which practically amounts to a bid for National action—"a general strike if the other Unions agreed to it"—as Mr Hodges explained. But it remains to be seen whether the other Unions will be disposed to interfere in a dispute which grows worse with the lapse of time, and which has already so grievously re-acted on all branches of industry in Britain. The suggested step does not appear to be taken seriously across the Channel, and the "Daily News" for instance observes that such a policy as a general strike "would be exceedingly ill-advised, and would react disastrously upon the whole labour position." And so, despite wars, and rumours of wars, we are yet hopeful of a peaceful solution of the problem, how or by what means it may be arrived at. A strong argument in favour of this view is that in various districts large numbers of men have signed on to resume work immediately, and it is believed will have gradually done so before the week has passed. On the other hand, there are messages from a number of coal fields indicating that the men there are resolved to stand by the result of the ballot. But it is quite evident that unanimity, or anything approaching it, does not exist amongst the miners, and the puzzle, therefore, is how the situation is to end, and what time must yet elapse before this disastrous struggle becomes a thing of the past. Undoubtedly it is a time for compromise and common-sense. A fight to a finish can benefit nobody—the miners, the coal-owners, and last, though certainly not least, a long-suffering public.

OUT AND ABOUT.

Limerick Diocesan Synod will be held in the Diocesan Hall, Pery-street, at 3 p.m. on Friday, July 1st.

The Great Western Railway Co. has decided to rebate one sailing per week in each direction—Waterford and Fishguard.

Dr Cusack, of Cahir, Co. Tipperary, aged about 55, died suddenly on Sunday night in a Dublin hotel. He was removed in the Fire Brigade ambulance to Mercer's Hospital.

The Clonmel Horse Show Society has decided to hold a two-days show, as usual, on August 4 and 5. An Irish horse show is held in connection with this event.

The Tipperary Show Committee having on Saturday carefully considered the present state of affairs, decided to wait a few weeks before deciding whether to hold their show in September.

THE NORTHERN PARLIAMENT.

To-Morrow's Royal Visit to Belfast. It has been officially announced in Belfast that the Queen will accompany the King to Belfast on Wednesday. The Royal yacht which will convey their Majesty from Holyhead will be escorted by the following ships: the Admiral Lord Beatty, the battleships Revenge and Ramillies, the light cruisers Carysfort, Cleopatra, Atholl, and Spencer, and the following vessels of the second division: the destroyers Brilliant, Wolfhound, Venus, and Vesper.

COUNTY LIMERICK LABOUR COMMANDERED.

On Thursday evening Court forces commanded a number of young men in hospital, and compelled them to fill in trenches which had been dug in the district.

SINN FEIN AND THE BRITISH CENSUS

The Press Association says:—The report that the Sinn Féin Government has ordered all "Citizens of the Irish Republic" to Great Britain to refuse to fill up the census papers was emphatically denied at the Registrar General's Office on Saturday. "Nothing is known in the official quarters concerned of any such action," highly placed officials said, "and in any case it is most unlikely that Sinn Féin would adopt such an obvious means of making their supporters known to the police."

COURT MARTIAL IN LIMERICK.

Trial of King's County Civilian.

A Field General Court-martial was held in the New Barracks, Limerick, today, when Lawrence Langton, of Camber, King's County, was charged with having ten rounds of ammunition not under effective control at Birr on the 5th March last; he was also charged with having in his possession on the same occasion, a document purporting to relate to the affairs of an unlawful association, namely, the Irish Volunteers.

The accused, who pleaded not guilty, was undressed.

A police sergeant stated that on the date in question, about 9.30 p.m., he was on patrol duty, and was accompanied by an investigation into the cutting of telegraph wires. While going in the direction of the military barracks at Clontarf, it being a very dark night, and when just outside the town of Birr, the patrol met some cyclists who had no lights. They were charged, and the cyclist who was in the lead, with the result that the cyclist was wounded and unconscious. Three doctors were called to attend him. Subsequently, when searched, with the assistance of another policeman, ten revolver cartridges (produced) were found in the prisoner's belt trousers pocket; these were service cartridges, none of which was in the top. A field dressing was also found in his possession, and a document relating to the Irish Volunteers. Accused was taken to the military hospital, Birr, where he was until the 2nd ult, when he was arrested, charged, and legally committed.

The President—Did he make any statement?

No.

The prisoner, in answer to the Court, said he never saw the stuff, the ammunition, until produced now. The document was never in his possession. In fact the things with which he was charged were lying in possession of his never saw.

The President—How long was it from the time the shot was fired before you came up to the accused?

The witness—About two or three minutes. The constable who helped to search the accused was the only witness present at the finding of the ammunition and dressing.

The accused further stated to the Court that he did not think the things in his possession when he left home that night. He was two months in hospital before he was charged with any offence.

A police constable giving evidence stated he left Birr police station on the night of the 5th March, and went to the Chapel Road, where he saw a man lying on the ground. On the night he did not think the things in his possession when he left home that night. He was two months in hospital before he was charged with any offence.

A police constable giving evidence stated he left Birr police station on the night of the 5th March, and went to the Chapel Road, where he saw a man lying on the ground. On the night he did not think the things in his possession when he left home that night. He was two months in hospital before he was charged with any offence.

The Court then closed, and the finding will be announced.

POLICE ATTACKED IN PENNYWELL.

Constable Wounded.

On Saturday night a large conveyance some seven policemen were passing through Pennywell shortly after 10 o'clock when a bomb was thrown at the car as they were going through the village. The bomb exploded close to the car, damaging it in two places, and Constable Mulcahy was struck on the head by a splinter, and slightly wounded. He and the other occupants of the car had a very narrow escape. The constable was taken to the County Prison, where he was being treated. Some splinters were removed, but the attack was not serious. The Court closed, and the finding will be announced.

CLARE MEDICAL OFFICER ARRESTED.

On Saturday evening Dr J. Holmes, medical officer, Clontarf Union, was arrested by military and conveyed to William Street police barracks, where he was being treated. On Sunday he was removed to the County Prison, where he was being treated. Some splinters were removed, but the attack was not serious. The Court closed, and the finding will be announced.

IRISH LAND BILL.

The Government, it will be recalled, undertook to deal last year with an Irish Land Bill, pari passu with the Government of Ireland Bill. The Bill was introduced with this apparent intention, since when nothing more has been heard of it. A number of Irish landowners have now had an interview with the Irish Chief Secretary and Attorney-General, in the hope of "getting a move on." In existing circumstances it is, however, thought a forlorn hope, and Sir Hamar Greenwood did not find himself in a position to say anything more encouraging than is found in his promise to lay the views of the deputation before the Cabinet.

THE AMBUSH IN SIXMILE-BRIDGE DISTRICT.

Dublin Castle reported on Saturday—"At 12 noon yesterday a patrol of one sergeant and 9 constables, R.I.C., for Newmarket-on-Fergus, Co. Clare, were ambushed by about 30 armed civilians at Carrigrohane, in the Sixmile-bridge district. There were no police casualties, and those of the attackers are unknown. A relief party from Sixmile-bridge, consisting of 1 L.I., 1 head constable, and about 20 constables were ambushed at Carrigrohane, between Sixmile-bridge and Newmarket-on-Fergus, by about 50 armed civilians. Constable A White was wounded in the arm, but not seriously. A civilian was wounded and taken prisoner."

LIMERICK BOARD OF GUARDIANS.

Election of Chairmen. The annual meeting of the Limerick Board of Guardians was held on Saturday for the election of a chairman, vice-chairman, and deputy vice-chairman for the ensuing twelve months. Mrs A. Byrne, deputy vice-chairman, presided.

Mr Keane proposed, and Mr Byrne seconded, the re-election of Mr A. Brennan as chairman.

Mr O'Flynn was proposed for the office by Mr Costello, but he declined the nomination.

Mr Brennan was declared re-elected. Mr Costello dissenting on the grounds that Mr Brennan was unable to attend the duties.

Mrs A. Byrne was elected vice-chairman, and Mr J. M. Sweeney deputy vice-chairman.

The meeting then adjourned as a mark of respect to the memory of Mr M. Gleeson and Mr C. McCarthy, who were killed in the train ambush near Clontarf on Friday.

REPORTED PEACE OFFER.

Sinn Féin and the King. The Central News Lobby correspondent writes: A remarkable but vague report is current in the Lobby to-night on good authority that Sinn Féin intends to signalise the King's visit to Belfast on Wednesday by making an offer of peace to His Majesty.

A MISSING TEACHER

Found Shot Dead in Clare. At three o'clock on Friday a party of police found the dead body of Patrick D'Arcy, aged 27, at Doonbeg, County Clare, a school teacher, who had disappeared from his home at Coonacree, County Clare, the previous night. A label attached to the body bore the following: "Sinner's name—Patrick D'Arcy, aged 27, married, and executed by I.R.A."

TENNIS PARTY FIRED AT.

Colonel-Commandant Killed.

Lady Injured by Pellets.

Dublin, Monday. The following was issued from Dublin Castle today:—

Colonel-Commandant Lambert, Commanding the 13th Brigade of the 5th Division in Ireland, at 7.30 p.m. on Friday, was seriously wounded at a tennis party. Mrs Chaloner, wife of Colonel Chaloner, who was also in the car, was slightly wounded in the face by gunshot pellets. Colonel Chaloner and Mrs Lambert, wife of Colonel-Commandant Lambert, who were travelling in the same car, were uninjured. The party was called upon to halt suddenly by a party of armed civilians and they refused. The driver put on speed and the car was shot at, and Colonel Lambert received a gunshot wound in the neck. He died of his wounds one and a half hours later. Colonel-Commandant Lambert commanded an infantry division in France during the late war.

MILITARY OFFICERS SHOT DEAD.

One in Co Dublin.

On Sunday afternoon a military officer was murdered in the County Dublin while driving in a motor car with three ladies.

The officer, who belonged to the 2nd Worcester-shire Regiment, was stopped in the neighbourhood of Carrickmines by an armed party of men, who took from the car, fired revolvers, and wounded him severely.

The men then lifted the wounded man into the car, and directed the lady who was at the wheel to drive towards the mountains. Here the officer was taken from the car and shot dead.

The following official report was issued from Dublin on Sunday night:—

"At about 5 p.m. today an officer of the 2nd Worcester-shire, while out driving in a car, accompanied by three ladies, was 'held up' by armed civilians in the neighbourhood of Carrickmines, County Dublin.

"On ascertaining that he was an officer, he was shot dead by the car and shot dead.

"He was dangerously wounded, replaced in the car, and the lady who was driving was then forced to drive the car to the mountains, where the officer was taken from the car and murdered."

EXTRACT FROM "AN T-OGLAC," MAY 27, 1921.

This publication says that:—

"The I.R.A. is obedient to the laws and customs of war; that is, the humane usage of war, attacking only the armed forces opposed to it, their spies and informers, and their military property, and releasing prisoners of war unharmed when they cannot be put to use.

"In so doing they have set a high example to their powerful enemy."

"It will be interesting to discover in what fashion the official organ of the Irish Volunteers will prove that this officer was killed in accordance with the laws and customs of war."

Three Officers Kidnapped and Shot.

In Co Tipperary.

A report from County Tipperary states that while three military officers were held up by armed men, who carried them off. At a later hour the bodies of the three officers were found at Woodroffe, which is near Caher. They are stated to have been found by the roadside, and were riddled with bullets. By order of the military all business establishments in Tipperary were closed yesterday.

No further reliable details are available regarding the shooting dead of three military officers, who it is stated, were kidnapped when going to a tennis party. It is, however, definitely established that one of the three dead bodies found at Woodroffe, between Caher and Clonmel, was that of Lieutenant Tinsley, who belonged to the 1st Battalion Lincolnshire Regiment, stationed at Tipperary. He was aged nineteen. His remains were brought to Tipperary Military Barracks.

An official report states:—Three military officers, two of whom belonged to the R.F.A., and one to the Lincoln Regiment, have been found murdered at Woodroffe yesterday. The bodies of the three officers were found by the roadside, and were riddled with bullets. Each officer had been blindfolded before he was murdered. They left their barracks at Fethard, County Tipperary, yesterday (Sunday) afternoon to go for a walk, and were not heard of until the discovery of the bodies yesterday morning. They were in civilian garb.

THE COAL SITUATION.

Some Mines Open.

The Government Grant.

In some of the coal pits yesterday work was resumed, and in some more preparations to start are being made. In other cases, pickets induced men to remain idle. No important development in the movement has been heard of. The other unions are likely next week, while informal discussions of the situation with Labour leaders are certain to take place at the Brighton Conference this week.

In the House of Commons, Sir Robert McLauren asked whether any men as returned to work would have a proportion of the ten million pounds added to their wages, provided they start work during the week. Mr Lloyd George said it was plain it would be impossible to allocate the grant of assistance which the Government offered unless upon a plan operating throughout the whole coal-field, and that the acceptance by the Miners' Federation was also necessary. The Minister in answer to the question, said that the Government was not forthcoming within the time. Commander Kenworthy asked what the Government going to do now. Mr George made no reply.

CITY LABOUR TROUBLES.

The strike of the city bakers for a substantial increase in their weekly wages has entered on its second week without any indication of a settlement being reached. The master bakers' union refused the demand of 15 per cent increase on the pay rate have made no move to open negotiations, and a number of those who struck work are working with small employers, or at the Workhouse bakery, where the ovens are being utilized to aid in the supply of bread for the citizens. This action has met with approval, and has helped to modify the situation in the absence of the usual full supply for the people. The men, it must be said, are working with a will to meet the demand.

The action with regard to the strike of bakers in the city, and which led to some five hundred men being compelled to cease work, shows no change. The workmen employed at the manufacturer had necessarily to be disemployed through the action of the bakers, and the refusal of the merchants to accept the master bakers' demand. The dispute which led to the stone cutters employed in connection with the erection of St. Michael's new parish church ceasing work will, it is understood, be amicably arranged within the week.

SHANNON ROWING CLUB "AT HOME."

The round of attractions to be provided for patrons of the Shannon Rowing Club "At Home" at the election of Chairman of Districts, held at the Shannon Rowing Club on Friday evening, should prove a large attendance. The committee of ladies organizing the reception, which is in aid of that highly deserving institution, the Bedford Row Hospital, will present a very interesting programme of amusements. There will be a concert by the members of the club, and a performance of the band of St. John's Temperance will perform a choice programme. The rowing is certain to be up to the standard of previous years.

IRISH METHODIST CONFERENCE.

At the Irish Methodist Conference in Belfast the result of the election of Chairman of Districts was as follows:—Dublin—Rev. W. R. Edd's; Waterford—Rev. W. H. Massey; Cork—Rev. J. M. Allen; Limerick—Rev. William L. O'Connell; Sligo—Rev. James Cathcart; Enniskillen—Rev. W. Moore; Clones, Rev. J. R. Templeton; Londonderry—Rev. R. G. Collier; Belfast—Rev. Hugh M. Barry; Portadown—Rev. James Kirkwood.

LIMERICK HARBOUR BOARD.

Mr P. C. Gleeson, D.L., presided at the meeting of the Limerick Harbour Board yesterday. There were also present: Messrs J. H. Roche, D. Griffin, B. O'Flynn, B. C. J. N. Russell, and Alderman P. O'Leary.

The officials in attendance were—Messrs J. F. Power, Secretary; H. V. Moran, Engineer, and Captain J. Fitzmaurice, Harbour Master.

QUITE SAFE FOR NAVIGATION.

Mr Roche proposed, and Mr Russell seconded, the adoption of the minutes of the Pilot Committee, which was passed.

Mr Griffin enquired if there was any obstruction at the Oak Rock.

The Secretary—No. The soundings revealed that there was more water there than at the gill.

Mr Griffin—That is satisfactory.

The Secretary—The dredged and diving barge had gone down to the place, and there was nothing in the nature of an obstruction it was only loose stone. The river is quite safe in every respect, and quite recently two representatives of the American Shipping Federation called on the Harbour Master with reference to this matter. They were most anxious about it, and stated, if anything happened their ships they would not allow any more of their vessels to enter the Shannon. The Harbour Master was able to assure them that the river was quite safe and that vessels of more than the American steamers were safely piloted and docked at Limerick.

ELECTRIC LIGHTING.

A letter was read from the Town Clerk, Mr W. M. Nolan, stating that the Electric Lighting Committee would like to know whether the Harbour Board would consider the possibility of service of lighting, and if not, what service they would require for the future.

The Secretary said it was very difficult to answer that at present.

The Engineer—You could not say, but we will restrict the service so as to allow no waste of current.

The Secretary—I presume the Town Clerk means the whole service.

Mr O'Flynn—Will you continue the restricted service? That is what the Corporation Committee wants to know.

The Engineer—Yes. In pre-war days the guano and guano berths were lighted.

Mr O'Flynn said he realized that the Board should be anxious to arrange terms for a public Board whose consumption is large.

Mr Griffin—I am the feeling of the Electric Lighting Committee that there should be a reduction given to a Board like this.

The Secretary—I would suggest that we reply to the effect that it is the intention of the Board to return to the old scale of lighting when things become normal.

Mr Roche proposed a resolution to this effect, which was seconded by Mr Russell, and adopted.

ROCKETS FIRED ON OY.

A letter was read from the Harbour and Docks Association, London, asking the views of the Board with regard to tonnage dues on oil consumed by oil burning vessels. Was it the practice in Limerick to charge dues on deck engines under section 85 of the Merchant Shipping Act.

The Secretary—The Board was not concerned at present, as there were no oil burning vessels coming into the port.

The Harbour Master—Yes. We had two of these vessels in here lately.

The Secretary—The question then is whether such vessels should be charged dues on the oil they carry for fuel.

The Chairman—I don't think they should.

The Secretary—When a vessel carries coal for her own bunkers she does not pay tonnage dues on it.

Mr Russell—Why should a vessel then pay for the oil she carries for her own consumption?

The Secretary—Then you could not charge her.

The Board instructed the Secretary to write to the Docks and Harbours Association stating that vessels with oil for cargo were to be charged for but not otherwise.

HAIRDOGS DUES.

Messrs Dowdall and Coy. Cork, wrote as agents for the Moore-McCormack Steamship Company pointing out that the dues charged by the Limerick Harbour Board were very excessive, and higher than those charged in any other Irish port. The dues charged by the Board were not an inducement to the trade and shipping of the port. As the steamers would be very regular in future, Limerick being included in the regular service, they therefore hoped that some reduction would be made in the charges, and place them on the same footing in this respect with the other regular trading vessels.

The Secretary said the statement that the dues charged by Limerick were higher than in other Irish ports was incorrect. Their charges were considerably lower than Cork, which in 1914 were 1s 4d, and Waterford 1s 2d, and Limerick 1s. The dues charged by Limerick had increased their rates 1s 6d, and what he would suggest, before any action was taken in the matter, was to defer replying until they ascertained what were the charges in other ports.

Mr O'Flynn enquired.

Alderman White—They may have given the Moore-McCormack people special facilities in Cork.

The Secretary—We can get that too.

Mr Roche thought every encouragement should be given to the Moore-McCormack service, which was a great advantage to the port. Meantime the dues charged by Limerick should be reduced to the level of the other ports.

The Secretary—The Waterford rates are 100 per cent over pre-war charges.

Mr Griffin—Every inducement should be given to this line of steamers to come to Limerick. The Secretary said he would be treated the same as the regular steamship service.

The matter was deferred to next meeting when the Secretary will have a list of the charges in operation in the other Irish ports.

SHIPPING.

The Secretary reported that three ocean-going vessels, two coasting steamers, and four regular traders visited port since last meeting.

The Board then separated.

CORK HOTEL MANAGER WOUNDED.

In Winthrop-street, Cork, on Saturday night, shortly before 10 o'clock, Mr Michael Leahy was shot in the hall of Wren's Hotel, of which he is manager. His assailant was one of three men who came outside the hotel and sent in for him. Mr Leahy received a serious bullet wound in the left hip.

TRADE WITH THE PORT.

A large steamer, the "Treshalling," with a cargo of 3,000 tons of maize, came up the Shannon on Saturday evening and was docked. The "Treshalling" arrived from the Argentine, the cargo being consigned to the Messrs Bannatyne and Sons.

LIMERICK NO. 1 DISTRICT COUNCIL.

At the annual meeting of Limerick No. 1 District Council on Saturday, Mr J. Hyne, chairman, presiding, the motion of Mr Lynch, unanimously re-elected chairman, and Mr M. Hyland vice-chairman.

Resolutions of sympathy were passed with the relatives of Messrs M. Gleeson and C. McCarthy, killed near Clontarf on Friday last.

Italy has ratified the International Court of Justice protocol of the League of Nations.
