HOW ARE YOU?

Many people have a very poor idea of what it is to be really well. They are quite content so long as they can manage to get about and do their daily work and keep out of the doctor's hands. Health, however, is much more than this. It means energy. vigour, good spirits. It means fitness in every sense of the word. It means a system that is perfectly nourished and free from ailments, a system in which all the organs perform their functions naturally and thoroughly. If your health is not altogether satisfactory, you will find a wonderful help in Beecham's Pills. They have an excellent, purifying, stimulating and tonic effect and do much to promote good health and physical efficiency.

WHERE DANIEL WAS BURIED. At Luristan, a province in the South of Persia, there is a beautiful spot surrounded by trees, with a background of mountains, known as the grave of the Prophet Daniel. Here, according to tradition, Daniel was buried. To doubt this statement is to insult the inhabitants. The Lurs, as they are called, belong to a nomadic peasant tribe, who live in the plains during the summer months in order that they may till the ground and reap a rich harvest, and retire to their mountain huts during the winter. Like the other mountain tribes in Persia, the Lurs have a chief to rule them. They behave most hospitably towards strangers, but are not above robbing caravans should they require fresh goods to replenish their stores.

A communication was received from the Dublin Chamber of Commerce convaning the question of the British and Ireb mails service. The matter had been discussed at a recent meeting of the Chamber, and a letter ordered to be transmitted to the Postmaster-General, giving the Chamber's view. A dopy of the letter, carlosed, stated the necessity that existed for secol ration of the mails service between E. goard and I cland While the service between Eu t n and Dublin might have been accelerated, there was no doubt that the South and West left toom for alteration in the service to enable the mails to be delivered at a time approximating pre-war days. The Chamber was giad to see that the accelerated service had been restored with Belfast and the North, and that being so there was no tension way the same facilities should not be given to the South and West. For the week ending August 13, the latest figures, the output was 4.537,30 . This output, the owners add, is obtained by largely reduced staffs. Before the strike the mines found employment for 1,225 000 workmen.
