IMPORTANT BUSINESS

People are apt to forget that health management is the most
important business in which they can be engaged. It requires
only a few moments' reflection, however, to realise that,
if through neglect or ignorance one's health is injured all
one's efficiency and enjoyment of life is impaired. You simply
cannot afford to let yourself get run down or to ignore
any symptom of impending ill-health. Whenever you have
any reason to believe that your stomach is out of order or
that you are inclined to be bilious or constipated, you will
be wise to take a dose of Beecham's Pills and to continue
taking them according to directions until you feel
quite all right again.

**BEECHAM'S
PILLS.**

Sold everywhere in boxes, price 1/4 (25 pills) & 2/9 (100 pills).

A BK for O'Donovan's "Garryowen" Miners
Waters and bottled drinks; purest and
best.

CARBOLIC DISINFECTANT. A few teaspoon-
fuls shaken up in a quart of water and
sprinkled about, or put into the drains is very
essential. You can get this from WIDDESS,
Roche's street; 1/9 per pint, or for 1/6 in your
own bottle.

DEBT COLLECTING AGENCY (Established
1890). (The oldest Limerick Loan Office
1858). Debts and rents collected on com-
mission, and money advanced. Open daily 10 to
3 o'clock. J. H. KERRIGAN, 9 Glenworth
Street, Limerick.

COUGHS AND COLDS, always with us, can't
be sent to Spain like the rain. But they
can be cured speedily if you take EMBY'S
ESSENCE OF BENZOIN. This remedy is the
best of all cough cures, and is used for colds,
bronchitis, asthma, husky voice, influenza, etc.
Price 1/6 and 2/6, from M. B. WIDDESS,
Chemist, Limerick. Agent for Eastern Foam
Complexion Cream, 1/4 per jar.

PEAR'S ENCYCLOPEDIA—Just received,
the new edition of this wonderful book.
Price 3s only, at Galbraith's, 33 Upper Cecil-
street.

**TEETH ARE TOO PRECIOUS TO BE
TRIFLED WITH**—Take care of your
teeth in keeping with their value. Have a dentist
examine them at regular intervals, and always
use a good dentifrice. Klenzo Tooth Paste will
cleanse, polish, and whiten your teeth without
injuring the enamel. Price, 1s.6d. A Good Tooth
Brush should also be used. Our assortment is
complete.—LAIRD'S, The Rexall Shop.

FOR 25 years DYER'S VESICANT holds
away as being the best as well as the most
humane blister for horses, dogs, or cattle. Never
bleaches; does not destroy the hair roots. For
hemorrhoids, sprained tendons, curbs, splints, spavins,
Dyer's Vesicant has no equal. Numerous testi-
monials. Your Chemist has it; price 2/6, 5/-,
and 10/-.

PRETTY NAILS reflect refinement. You
should keep your nails in perfect condition
by giving them daily attention. We make a
speciality of Manicure Goods, Enamel, Nail
Brush, Polisher, Nail and Cuticle Sores,
Nail Files, Emery Boards, Orange Sticks, etc.
Our stock of all toilet requisites is complete. If
you see it advertised, we have it.—LAIRD'S,
118 O'Connell Street.

PAINTING—Oils, Paints, Enamels, Varnishes
all kinds of Brushes, Buckets, Polishers and
general Chandlery.—PEACOCKE, 66 William-
street.

**SAISFACTION TO THE CUSTOMER OR
MONEY BACK.** This is the guarantee
we offer with every Rexall Remedy. There is no
other qualification—your word is sufficient—you
may have your money back if you are not satisfied.
Where can be as stronger proof of merit.—
LAIRD'S, The Rexall Shop.

A CURE WHEAT—The next time you are buying
try "Woodford's" Delicious Tea; the best
and most satisfactory.—Woodford, Bourne
and Co., Ltd., Limerick.

BUILD UP YOUR CHILDREN during the
coming months, give them all Udal Emulsion
of Cod Liver Oil with Parilla's Syrup. This com-
bination is constantly being recommended by
doctors. Cod Liver Oil repairs waste tissue,
builds up and forms flesh, whilst Parilla's Syrup
makes fine bone and marrow, sharpens appetite,
and generally tones up, making healthy and robust
children. WIDDESS, the Chemist in Roche's
street, sells the Udal Brand, price 1/6, 2/9 and 5/-,
postage 9d extra for any size.

FOR THE HOME.
PRACTICAL HOUSEWIFE.

THE LADDER IN SUMMER.
 Flannel is a very useful and very often neglected article. Great care needs to be taken to protect all food, and where doors fitted with perforated zinc panels are not available in the kitchen a flannel should be stretched over the shelves to exclude the pests. Small pieces of white net or muslin are useful for protecting, wet, over jars containing milk, or basins containing butter, and if these receptacles are stood in water and the ends of the muslin immersed, coolness is assured.

TO KEEP AWAY MOTHS.
 Our grandmothers used lavender for the purpose, and found it entirely suitable. The best way is to pack the lavender into bags that will fit flat when placed among the clothes. Now and again it is a good plan to give the bags a shake up, as this makes the lavender give out fragrance with fresh vigour.

TO WASH FLANNELS.
 Flannels should never be twisted in the hands. If impossible to use a wringer, lift the flannels from the water with one hand, and with the other squeeze the garment until it is comparatively dry, then shake it thoroughly, and dry in the same temperature in which it was washed. Many who are most successful in washing flannels never wring them at all, but take them from the water and allow them to drip until they begin to dry, finishing the process by the fire. It is rather poor soap, but handkerchiefs, or handkerchiefs of temperature that cause flannels to shrink. If they are ironed, they must not be left to dry beforehand, but ironed while damp will dry.

TO MAKE BAILEY WATER.
 Allow one ounce of pearl barley to each quart of water, and add a pinch of salt. Wash the barley, put it into a pan, cover it with water, boil well up, drain this water off, and throw it away, as it may be bitter. Cover the barley now with the quart of water, add the salt, skin after it boils, cover and simmer for three or four hours. Strain and use when sold. Equal quantities of the barley water and of cold boiled milk with sugar or not as preferred will be found refreshing, or lemon juice and sugar may be added instead of milk.

HOW TO DRY CLEAN GLOVES.
 The following hints on cleaning gloves with soap and water, and drying them, will leave the leather quite clean and without any odour. Indeed, if carefully done, they will look just like new. Having put the gloves on, the tips of the fingers and any specially soiled parts should be carefully cleaned with a sponge or damp handkerchief, wring out of cold water till nearly dry. Now put a little French chalk or common whiting (well powdered and dry) in the palm of the left hand, and work it thoroughly into the fingers and thumb of the right hand, reversing the process in order to clean the left-hand glove. The rest of the glove can be moistened in the same way and manipulated by the opposite hand, after which the gloves can be taken off, and a clean cloth or dry handkerchief used with the whitening till clean. Rub off the superfluous powder with a soft handkerchief.

KITCHEN REQUISITES.
 Near the sink and stove should always hang kitchen scissors, a tin opener, a cork-screw, a small sharp knife, a cloth holder for lifting the lid, a dredging box for flour, a sifter for pepper and a box of salt; a pot chain for cleaning stoves and pans, and a soap-skin for holding the small bits of soap that might otherwise be wasted. Also a small dish-mop for cleaning the sink and pans, and a small tin to clean the hands—this latter is useful, too, for drying the hands when washing fine china or glass in very hot water.

FRUIT COCKTAILS.
 Fruit cocktails need have no admixture of alcohol whatever, and are a great resource at garden parties and elsewhere. They are simple to make, and a box of salt; a pot chain for cleaning stoves and pans, and a soap-skin for holding the small bits of soap that might otherwise be wasted. Also a small dish-mop for cleaning the sink and pans, and a small tin to clean the hands—this latter is useful, too, for drying the hands when washing fine china or glass in very hot water.

CASSEROLE OF CHICKEN.
 One chicken, four ounces of bacon, two shallots, one ounce of butter, four ounces of water. Divide the chicken into neat joints, and trim the slices of bacon. In a frying-pan fry the bacon lightly, remove, pour off some of the fat, and then fry the pieces of chicken till all these begin to brown. Pack bacon, chicken, shallots, mushrooms, and seasoning into a casserole, or using the unfried neck, gizzard, liver, and blushed feet round the side. Pour cover with water, cover closely, and allow to simmer about an hour and a quarter, after which remove the "gizzards," drop in the butter and flour (which have been first kneaded together with a spoon in a small bowl), and pieces of celery, and cook a further fifteen minutes. Send to table in the casserole in which it has been cooked.

BIRTHS, MARRIAGES, DEATHS.
 Announcements of Births, Marriages, and Deaths, not exceeding five lines, must be in all cases fully authenticated, are charged 4d each. For every additional line 6d extra.

BIRTH.
 PUGH—October 17, 1921, at 29 Crothwaite Park, W. Kingston, the wife of Commander J. W. Pugh, R.N., of a son.

MARRIAGE.
 STANLEY and JENNIFER—October 9, 1921, at St. Michael's, Bandon, the Rev. Father Edward Joseph, eldest son of Mr. and Mrs. St. Michael's, Bandon, to Miss Lillian Mary, youngest daughter of Mrs. E. A. Jeffery and the late Mr. Richard Jeffery, of Rock Villa, Rye, Staffordshire.

DEATH.
 STONE—October 15, 1921, at Dublin, Marianne Elizabeth Stone, of Town House, Sundry, widow of the late Very Rev. William H. Stone, Dean of Kilmore, aged 78.

INCOME TAX RECOVERER.—Super-tax Recoverer; Returns Accepted by J. J. WALLACE, Expert, College Park Chambers, 10, New Street, Dublin.

STONED—October 15, 1921, at Dublin, Marianne Elizabeth Stone, of Town House, Sundry, widow of the late Very Rev. William H. Stone, Dean of Kilmore, aged 78.

LIMERICK QUARTER SESSIONS.

At the Limerick Quarter Sessions on Saturday, before His Honor Judge Pigot.

The Postmaster General was awarded £7 compensation for the destruction of two telegraph poles and wires at Laurencetown on the 17th May.

Mr. Kelly (instructed by Mr. F. X. Kelly) appeared for the applicant.

Compensation to the amount of £27.10s. was allowed for the loss of the telegraph poles and wires at Laurencetown on the 17th May.

Mr. Alfred Tennyson, Local Government Board Inspector, residing at Cragg, Clonlara, applied for £300, and was allowed £112 compensation in respect of injuries to a motor car on the 11th May.

Mr. E. Leahy, solicitor, appeared for the applicant.

Captain W. Moloney, Rathmore, Co. Wick, was awarded £205 compensation for the loss of a motor car, a motor bicycle, a Webley revolver, and field glasses.

Mr. E. Leahy, solicitor, represented applicant.

An award of £34.3s. was made to the Postmaster-General for the loss of telegraph wires at Herbertstown. The circumstances were that a number of men, who had been employed in repairing the wires, took away the bag and contents.

Mr. P. Kelly (instructed by Mr. F. X. Kelly) appeared for the applicant.

The Court rose until Monday morning.

Rathkeale Business.

His Honor County Court Judge Pigot resumed the business of the Quarter Sessions yesterday with the hearing of applications from the district of Rathkeale.

The following were granted a confirmation of certificates of excise licences—Carnell, Brannan, The Square, Rathkeale; John Lyons, Bridge-street, Newcastle-west; Mary McHale, Chapel-street, Abbeyfeale; and John Kelly, Main-street, Rathkeale.

A transfer of Excise licence was granted to—John J. Collins, Main-street, Abbeyfeale; Patrick Cronin, Church-street, Newcastle-west; Patrick Fitzgerald, Knockree, Abbeyfeale; Mary Flanagan, Main-street, Newcastle-west; John Hennessy, Ashford; Mary Houlden, Lough 11; Thomas Lynch, The Square, Newcastle-west; Mary McDonnell, Church-street, Newcastle-west; Bartolomew O'Gorman, Newcastle-west; and Daniel Sheehy, Main-street, Rathkeale.

The Court took up the hearing of undefended civil bills.

ENNIS QUARTER SESSIONS.

His Honor Judge B. Kelly, K.C., heard some further claims for compensation at Ennis Quarter Sessions.

Mr. Leary, Huddersfield, was awarded £14.65s. for the burning of Williamstown Lodge, Lough Derg, and its furniture, etc.

Mr. W. H. Ball, D.L., in addition to his claim for the burning of Fort Fergus, had several smaller claims and was awarded £38.10s. for injuries from shot wounds at a lawn tennis party at Kesh, £22.10s. for trees, £15s. for garden, £4.10s. for small claims, £2.10s. for, and £2s. for.

Mr. E. Leahy, solicitor, appeared for Mr. Ball, the former £38.10s. and the latter £15s. for personal effects.

Mr. F. N. Studdert, Co. Secretary, motor burned, £1.10s.

Mr. E. Leahy, solicitor, appeared for Mr. Studdert, £1.10s. for motor burned, £1.10s.

His Honor Judge B. Kelly, K.C., heard some further claims for compensation at Ennis Quarter Sessions.

Mr. Leary, Huddersfield, was awarded £14.65s. for the burning of Williamstown Lodge, Lough Derg, and its furniture, etc.

Mr. W. H. Ball, D.L., in addition to his claim for the burning of Fort Fergus, had several smaller claims and was awarded £38.10s. for injuries from shot wounds at a lawn tennis party at Kesh, £22.10s. for trees, £15s. for garden, £4.10s. for small claims, £2.10s. for, and £2s. for.

Mr. E. Leahy, solicitor, appeared for Mr. Ball, the former £38.10s. and the latter £15s. for personal effects.

Mr. F. N. Studdert, Co. Secretary, motor burned, £1.10s.

THE SLUMP IN AGRICULTURAL PRICES.

The present is a depressing time for Irish farmers. With the exception of eggs and poultry, nearly every kind of agricultural produce has dropped greatly in price. It is estimated that the value of the produce of the Irish farms in the spring of 1921 was £100,000,000, and in the autumn of 1921 it was only £50,000,000.

The slump in prices has been caused by a number of factors. One of the main causes is the overproduction of foodstuffs in Ireland. Another cause is the fall in the price of raw materials, such as cotton and wool.

The slump in prices has also been caused by the fall in the price of land. The value of land in Ireland has fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of labour. The wages of agricultural labour in Ireland have fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of capital. The value of capital in Ireland has fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of exports. The value of exports from Ireland has fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of imports. The value of imports into Ireland has fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of the Irish pound. The value of the Irish pound has fallen by about 50 per cent. since 1914.

The slump in prices has also been caused by the fall in the price of the Irish pound. The value of the Irish pound has fallen by about 50 per cent. since 1914.

CITY PETTY SESSIONS.

Colonel Williamson, R.M., and Mr. H. Dickenson, R.M., presided at the City Petty Sessions on Friday.

John Cullen, a young man, was summoned for driving through the streets after the race. The sergeant who presented the summons to the defendant was "very busy."

A fine of £20 was imposed.

Timothy Coffey, publican, Nelson street, was summoned for a breach of the Licensing Act on the 25th ult. for failing to admit the police on being requested to do so.

After five o'clock in the evening of the 25th ult., Sergeant Coffey was on duty, and happened to observe a number of people near the defendant's public house. The sergeant obtained admission, placed two constables at the door and went with a constable to the rear of the house and saw a number of people, four men and three women, go over a shed.

The sergeant found the back door to get admission, but without result. Eventually the wife of the defendant opened the front door of the house.

Evidence having been given, Mr. P. J. O'Sullivan, solicitor, for the defendant, pleaded guilty. There was no charge against the defendant for the past 28 years. Mr. O'Sullivan thought the second charge should not have been preferred.

A cumulative penalty of £4 was imposed.

Joseph O'Malley, publican, Lower Gerald Griffin street, was summoned for a breach of the Licensing Act on the evening of the 2nd ult.

Sergeant Egan, proved to finding some men upstairs in the premises, and when defendant was questioned he said they were having a drink downstairs before five o'clock and went up to bed. A fine of 10s. was imposed, and the case against one of the defendants, a guest of Mr. O'Malley's, was dismissed. The others were fined in nominal sums.

Some other cases were heard, and the Court adjourned.

At the meeting of the County Governors of County Limerick Amalgamated Union held on Saturday, at which the chairman, Mr. B. Laffan, Co. O. presided,

A letter was read from the L.G.B. Minister of Agriculture, and the appointment of Dr. Michael O'Brien as Assistant Agricultural Officer, to be provided pending a permanent appointment.

The Department refused a request in respect of the appointment of two visiting physicians, Doctors Brennan and Lane, on the grounds that one was sufficient.

The Minister added that the Department was not in a position to provide a permanent appointment, but that Dr. O'Brien, who was a man of good standing and a member of the County Guardians, and whose non-appointment would mean a considerable burden on the ratepayers.

The appointments of secretary, Mr. M. J. Hackett, and clerk of the County, Mr. J. Hackett, were approved, but in the case of the Secretary, Mr. John O'Brien, action was refused as he failed, as stated, to qualify for the post.

The Chairman said Dr. O'Brien should have told them that one visiting doctor would suffice before the County Council.

The Governors were unanimous in asking Dr. O'Brien to resign his position, and an existing official, being Master of Rathkeale Union.

At the meeting of the County Governors of County Limerick Amalgamated Union held on Saturday, at which the chairman, Mr. B. Laffan, Co. O. presided,

A letter was read from the L.G.B. Minister of Agriculture, and the appointment of Dr. Michael O'Brien as Assistant Agricultural Officer, to be provided pending a permanent appointment.

SCIENCE NOTES & NEWS.

Can Living Germs Pass Through Interstellar Space?

Do life exist in other worlds than ours? The claims of M.M. Gellipie and Bonfield, to have discovered living germs in meteorites, gives new vitality to a problem that has been the subject of speculation by scientists and philosophers for generations.

The new claim, written a scientific correspondent, recalls Lord Kelvin's theory, formulated fifty years ago, that life first came to the earth by means of germs carried from another world by meteorites.

Lord Kelvin never seems to have attempted any investigations with the idea of testing this theory, and was at pains to make it clear that it was a mere hypothesis; but other scientists have worked at it, in particular the eminent Swedish physicist, Arrhenius.

There are two main difficulties in accepting the theory—the apparent impossibility of any form of life surviving the intense heat of interstellar space, and the possible effect of the ultra-violet rays from the stars on germs moving in space.

With regard to the first, it has been demonstrated by the work of several investigators, particularly Arrhenius, that certain seeds and spores of bacteria survive temperatures as low as 200°C. below zero, and that under such conditions life is not destroyed, but only suspended. Germination, it has been suggested, is progressively retarded with decrease of temperature, and it has been calculated that the germinative power of spores probably diminishes no more in three million years at 200°C. below zero than in a single day at 10°C. above zero.

As to the second difficulty, it is correct, it is true, that the temperature of the interstellar space is so low that billions of germs in a state of latent life are moving through interstellar space.

But the second objection—the effect of the ultra-violet rays—has not yet been disposed of. Professor Becquerel a few years ago carried out a series of experiments on spores and bacteria excessively tenacious of life. He placed a number in vacuum tubes and immersed them in liquid air (210°C. below zero), a frigid temperature which only the hardest survived. These later on were exposed to the ultra-violet rays, and in six hours every one was dead.

In the face of this result it is difficult to believe that any form of life could survive the deadly action of the ultra-violet rays, which are the most powerful in the solar spectrum. It would appear, therefore, that though latent life can persist for long periods when favourable conditions of vacuum, low temperatures, and dryness are realised, as they are in interstellar space, the possibility of its survival being able to reach the earth by means of meteorites after exposure to the action of the ultra-violet rays emitted by the stars.
