OF MUSIC

Nothing is more southing than good Music. It is now within the power of everyone to have Musle in great. Orchestral Music by famous Bands and Orchestras. Instrumental Salos by Eminent and Popular Soloists, and so on,

Have you ever thought about the new interest you would find in life by having a Gramaphone.

It used to be sald no home was complete without a piano. Nowadays the home without a Gramaphone incks the happiness which Music brings in its path.

Let us put the case before you. The Gramaphone is the Universal Entertainer. It produces all lasses of Music - the best and the worst. It caters for all tastes. Whether you are given to " heavy " or "light" Music it makes no matter. The repertoire of the Gramaphone is inexhaustible. It is a cheap form of pleasure. Quite good Records can now be bought for 1/1 and 1/6 each. These Records are doublestilled one Tune on each side. A Gramaphone itself is not expensive either. We have been selling them since they were "talking machines." To day it ranks as a Musical Instrument - and why not f

Hundreds of Records are issued every month containing all the latest hits-Musical Comedy Revue, Ballads, Comic Songs, Waltzes, etc. etc.

We send these monthly Lists to apyone interested, We would like you to think out this Gramsphone proposition. It is worth thinking over.

We hivite you to call at our Showrooms to hear the Latest Records played on the Newest Gramaphones, or, if beconvenient, we shall be pleased to send

MR. WINSTON, the Eyesight Specialist,

Has been persuaded to remain Another Week, until Saturday, Oct 7th.

In consequence of numerous applications from those whom he was unable to attend to last six days of his stay in Limerick, Mr Winston has decided to remain another week with us, and give those who have not yet had the oppor tunity of interviewing him the advantage of his

NOT AN OCULIST. It must be distinctly understood that Mr Winston does not pose as an eculist, that is, according to the dictionary, "one skilled in diseases of the eyes," but he claims to be, and is justified in doing so, the most expert Specialist Optometriat or Optician in England. He has tested the eyesight of no fewer than a hundred thousand people in London alone during the part fire years, and has fitted gissues to sixty thousand of them in his store, 72, Regentstreet. The chemist is not an optician, neither in the doctor, nor the coulist even. Their education and experience have taught them the nature and use of drugs with regard to allments, but for impaired vision the scientific optician is the man.

FREE ADVICE. But the really skilled optician is rare. He is a man who must, from long experience, and by the use of most delicate instruments and appliances, be able to diagnose all the various disarrangements of the eyes, and be able to guage to the thousandth part of an inch the thickness of the lens that will correct it; whether it should be convex or concave, or how it should be ground. Only an expert ptician can do this, and that is why Winston has made the reputation that he has

A HARD SIX DAYS' WORK. It is a fortunate thing that Mr Winsten loves his work, otherwise he could never have got through such a week as he has just experienced. To say that was a record is to put in mildly, The first day produced a decent crowd, but when people told their friends and neighbours that they had been examined for nothing, and had obtained a pair of lenses for three or four shillings which had enabled them to read small point in the evening and daily papers with perfect case, then the rush | being afforded of late that the pelitical com-

But Mr Winston never allows himself to be and prescribe such and such a lens for, but presentation and calumny by which it has been there are others which require more minute sought to destroy the Irish l'arty and the luvestigation with the use of the most up todate optical instruments. These are attended to with the same cool care and attention as disastrous consequences of the Easter Week though there were not fifty or a hundred others | insurrection naturally led to extraordinary

Mr Winston has found during the past week that the strenuous work the war has thrown upon women has considerably affected their eyes - probably previously weak-and has produced in numerous cases those terrible headsches from which so many women suffer. He has in the majority of cases recommended a pair of lenses to use when they are at work, but which they need not use and ---SATURDAY, OCTOBER 7th, inclusive.

Sanity Prevails MANY significant and gratifying cyldences are monsense and the true patriotic instincts of the Nationalists of Ireland are surely and steadily piercing through the cloud of misre they hope that the improved aupplies and constitutional movement. The deletul and

chaos, and produced throughout the country an atmosphere that was anything but conducive to clear thinking or reasoned action. Despite Chairman, Mr.P.J. Kelly, R.M., also tendered Board, wishes, on behalf of the Committee, as Constant's heavy on belief of the Committee, as Constant's heavy on belief of the Committee, as the turmoil and bitterness and confusion of thought that arose out of the whole litany of regrettable happenings, however, sanity calm judgment are once more and beginning to assert themselves to a degree that fully justifies optimism as to the future of the Irish cause. The various classes of enemies were quick to seize upon recent tragic events as an aid to their campaign of faction, and for a time the danger of the country being swung off the only track which can lead to liberty and success looked nothing if not grave. Any intelligent observer who is able and willing to read the signs of the times aright can now see that the attempts to poison and drug the in tellect of Ireland into a condition of insanity from which there could be hardly any parallel are doomed to complete and inc vitable failure. The representative and responsible people in all parts of the country are sound to the core and those of them who were being inisied by the rhodomontade that was made do duty for patrictism are in steadily increasing numbers coming to see that the only salvation of the country lies in the maintenance of the constitutional movement and the preservation of unity, organisation and discipline behind Mr REDMOND's leadership. Speaking at Baskey on Sunday last Mr T Scanlan, M P. uttered some wholesome and telling truths in It has made even clearer than ever that the reply to the critics who want to "smash the only weapon on which we can rely is that of machine" but who can suggest neither a leader

Shocking Ennis Fatality

On Tuesday night there was a sad accident at the Ennis railway station. A young man named Thomas Morrissey, a native of Konis othern and Western Har, was engaged about half past 8, in shunting some waggons, when an engine which was passing struck him and knocked him down, passing over one leg and an arm, and completely severing them from the body. The poor fellow was at once taken to the County Infirmary, where he died

Relative to the proposal to all w outdoor relief to a woman named Mrs P Kenneslly. whose husband is in the workhouse hospital the Local Government Board wrote stating that in a case of this kind the guardians must act upon their own responsibility. The Board presumed that Mrs Kenneally receives the 10s payable to her husband under the Insurance Act, and if so, it was a question for the guardians to determine whether a further allow-

ance was necessary to relieve her and her family from destitution. In coming to a decision on the case the guardians should take into consideration the actual loss sustained by the family owing to the father's illness, and in making such a calculation the estimated cost of the man's maintenance should be deducted The letter was marked " read " as intimation was received that the man Kenneally was now out of hospital.

QUESTION OF LEAVE. With reference to the Buard's action to granting four weeks' leave each to the matron and machinist of the Workhouse, the Local Government Board wrote requesting to be informed when it is proposed that the two officers shall take their leave as the Board presumed that both will not be absent at the same time. The Clerk said the two officials named were now on leave, and it was decided to inform the on the utilisation of water power in Ireland. Local Government Board accordingly.

THE SHANNON SCHEME Interesting Paper at Belfast

Conference At the annual Conference in Belfast on Tuesday of the Association of Municipal Authorities of Ireland, Mr P.J M Andrew, BE, read a paper He argued that in that country, where the cost of coal for steam-raising was so high, greater use should be made of water power. There will be pleased to learn of the safe arrival in was, he said, 50,000 h p available in each of the New York of Rev Peter P Maruane and Rev rivers Shannon and Erne for eight months of J hn O'Grady. In some of the stock-raising farms in the United States electricity has been put on for the winter feeding of sheep. The sheep pens were wired, and the electric light was turned on during the winter months from 4 to 0 pm. t'mler the artificial illinorination the sheep continued to feed until the light was extinguished. The lights were again turned on at 1 a.m., and the sheep fed until daylight. In this way the sheep were made feed during the equivalent of a long summer's day, and thus, despite the winter season, were brought quickly to the condition of marketing. These were only a few points which ought to engage the attention of the Beard of Agriculture in Ireland, especially when they should have cheap power available from the proposed Irish hydro-electric undertaking. In conclusion, he asked the Conference, when each went to his respective district, to Impress upon his Board or Council the absolute

necessity for a determined effort to bring about the execution of the lrigh Hydro - Ricetric Scheme, which meant so much to this country, and to support by every means in their power the flanncial people who were good enough to find the capital for the project, and were now. ready to spend it if the necessary powers were granted. In addition to this, he had also arranged for the development of the coal, hon, and other mineral deposits of considerable value in the country, and arrangements were
