FIRE AT PLASSEY MILL.

HARVEY BROTHERS

BEG leave to return their sincere thanks to the MAYOR, COLONEL MANSEL, ALDERMAN CRIPS, SUB-INSPECTOR WILLIAMS, and the OFFICER who commanded the Fatigue Party, and the men under them, for the very prompt and efficient aid rendered at the late destructive Fire at Plassey Mill, and to the WEST OF ENGLAND Co. for the use of their powerful Engine, which was so ably and judiciously worked by MR. JOHN FOGARTY, as (under providence) to save a very considerable portion of valuable Machinery, and a large Kiln, but lately erected.

For the public smpathy so kindly and generally expressed, and for the aid afforded at the Fire by their rich and poor neighbours, and by many Gentlemen from Limerick, they feel deeply grateful, and are only deterred from particularizing names, lest, where all so greatly assisted, some might be unintentionally omitted.

February 9.

Milling
