LUCIOS SCIENTIFIC DIAMONDS

are the finest imitation diamonds ever manufactured or discovered. They are pure, brilliant refined and clarified, cut and polished by expert diamond cutters, with the same number of facets the same way as real diamonds. They have steadily grown in popularity since their first introduction in America. They are not a fad, and have stood the test of actual wear.

Every stone is warranted to retain its brilliancy, and having no artificial backing can be easily cleaned just like ordinary genuine diamonds.

CLUB RIGHTS.

(From our own Correspondent.)

At Ennis Petty Sessions yesterday, the Co. of Ennis Coursing Club, through their gamekeeper, Shannon, had Martin Burke and William Gerald, of Ennis, up for trespass on their premises in pursuit of game.

Shannon said he found the defendants at Ballyfodda with two terriers and a greyhound dog for game. Burke ran away from him, but he followed and caught him.

Mr. Crowe said the Club had to be abandoned for a year owing to the continued poaching. The defendants were fined 10s. and cautioned that if they came before the court they would be severely dealt with.

Mr. Moriarty, Thomas McMahon, and Mr. Hickie were summoned for a similar offence.

Mr. Burke was fined 10s., with a threat of a fine of £5 next time. Mr. Tosby, up for a similar offence, was fined 10s.
