could be no replacing of the object of our earthly
affection, and said that for one holding the pos-
ition he did to have to read the Burial Service
over one so respected, and he might say loved,
gave an extra pang and an additional agony to
the grave, which must be strong within the heart
of every one present. He desired to know
whether when one out of their own little com-
munity was brought there and taken to the
cemetery, as they had seen with their own eyes,
the thought crossed their minds "so it must be
with me."

SAD DROWNING ACCIDENT.

Mr Coroner DeCoursey and a jury held an in-
quest yesterday on the remains of Hugh Roberts,
24, unmarried, mate of the barque "Elizabeth
Spears," whose body was picked up out of the
river, near the Sarafield Bridge, about 2
o'clock on Sunday morning. From the evidence
it appeared that the deceased got a pound from
Captain Spears at 8 o'clock on Saturday evening,
when he left the vessel. Meeting some comrades,
he had drink in some publichouses. He subse-
quently met a sailor, whom he told that he had
been beaten by three men. His friend was seeing
him to the ship, when Roberts said he would
prefer to go alone, so that he might be able to
get on board without the captain seeing him. A
girl named Dopley deposed that she saw the
deceased walk towards the barque, catch a rope,
and, missing his hold, fall into the river. A
young man named Bob, hearing the splash in the
water, got a boat and went to the rescue of the
drowning man, but failed in the attempt. He
then called up Captain Spears, and a search being
made, the body was recovered, but life was then
extinct. Dr J R Shanahan, who had examined
the remains, deposed that the external appear-
ance of drowning was absent. There was a
punctured wound behind the ear, and the nose
was cut and bleeding. He could not say pre-
cisely what was the cause of death without
having made a *post mortem* examination. The
jury returned a verdict of accidental death. The
coroner complimented Head Constable Murray
on the careful and successful manner in which he
had procured evidence tracing the deceased from
the time he left the ship until the unfortunate
fatality occurred. The "Elizabeth Spears"
brought a cargo of sundries from Liverpool
to Dublin, and was bound for Cork and
