The first stage of the project, the "Talk of the Town" Grille, was opened about three years ago and utilised a hitherto undeveloped section of the site on which the cinema buildings are situated. Previously, the catering facilities consisted of a Snack Bar at ground floor level and conventional restaurants on the first and second floors.

Self Service

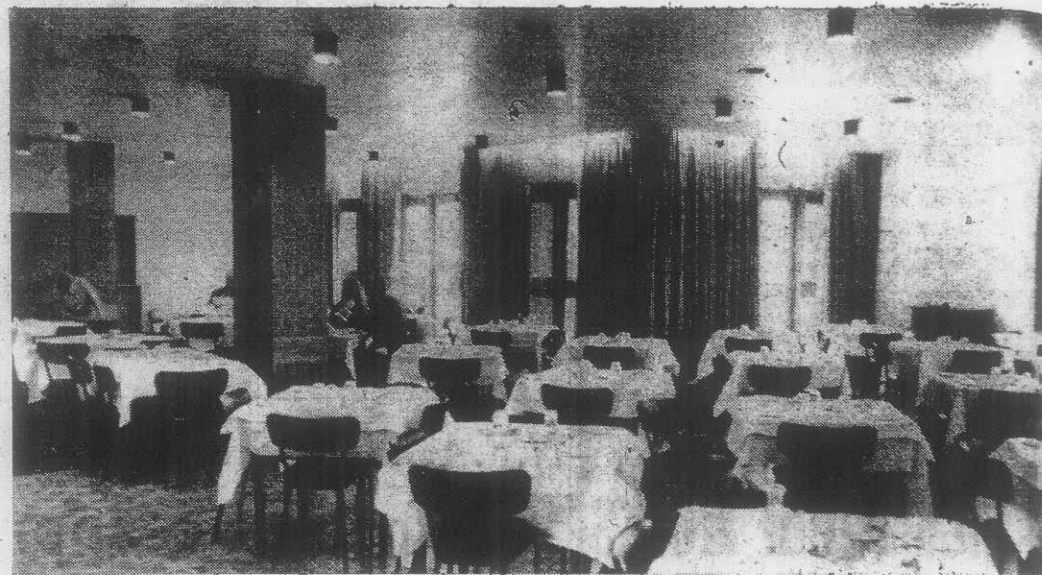

The Self Service Restaurant is the first of its kind in the area and follows the pattern of similar Restaurants which have proved successful in the Savoy and Metropole, Dublin, two other units in the Rank chain. Seating about 120 patrons the opening hours of the Self Service Restaurant are noon to midnight, with a two-hour closure between 3 and 5 p.m. Menus range from a full 4-course lunch to a glass of milk. With the installation of call-order for cooking equipment, most of the food served is freshly cooked to order. Decor has been designed to provide an atmosphere as attractive as that of formal restaurants, while the price range is low.
