

# Ger Malone & Co.

• BATHROOMS • HEATING • PLUMBING • TILES

GER Malone and Co. was established in Oct 1986 with its main activity being the supply of heating, plumbing and bathroom products. From the outset, directors Ger and Anne Malone's target market was not just directed at the tradesperson but at the general public as well. The company also focused on supporting Irish manufacturers rather than importers. This policy is still in place to this very day.

Trading began in the rented warehouse in the old Morgan McMahon's Yard on Mulgrave Street but it was always an ambition of the company to build its own premises. This was achieved when in 1993 Ger and Anne purchased a site at the Fairgreen and invested over €400,000 in a state of the art new premises.

While it was a lot of money to borrow, it was necessary to enable the company to provide the service that the customer required.

## Expert sales staff

Any company is only as good as the staff it employs. From a start in 1986 employing three people, the company now has 14 employees, between showroom and trade counter sales, delivery

and stores staff, accounts and reception personnel. While all sales staff are equipped to answer technical queries and questions posed by trades people, they can also impart their specialised knowledge couched in layman's terms so that the public will have a

greater understanding of the products available.

There is a large stock of plumbing, heating and bathroom equipment available ex stock. There is also a large range of eco-friendly products such as condensing oil and gas boilers, solar heating equipment and underfloor heating products. Another one of the growth areas is solid fuel stoves and there is always a choice of up to six models on display.

## Solar heating design service

While the company has always offered a free quotation and delivery service, it can now provide a heating design service and solar hot water design service, free of charge to all customers.

In a time where all householders wish to cut their running costs, the company can be very informative in helping people to become more self sufficient. Remember there are no meters for hot water that is produced by the sun through solar panels. Ger Malone and Co. is a registered S.E.A.I (Sustainable Energy Authority Ireland) supplier for the Limerick area.

## Investing in Irish brands

For the past 25 years, Ger Malone and Co. has represented Irish companies such as Carbery Plastics, Firebird and Grant Boilers, Kingspan, Ideal Standard, Myson, Shires, Hamco, Quality Plastics, Wilo Pumps and many more in the Limerick area.

While the downturn in the economy means everybody has to re-evaluate their situation, Ger Malone himself remains positive about the future. With the help of an excellent staff and a loyal customer base the company look forward to supplying tile, bathroom, plumbing and heating products for a long time to come.
