

Ryans Locksmiths

Securing the Mid-West since the 1948

Ryan's Locksmiths was established by the late Joe Ryan in 1948 at No.3. Lr. Gerald Griffin Street., Limerick and traded from there until 1975 when the business was transferred to its present location at 7. Upper William St.

In those 60 years many changes have taken place. For example from hand operated to the latest in computer and electronic machines necessitated by the ever changing technology of modern times.

Full security advisory service provided to suit domestic and commercial requirements.

Access control is now an important factor of life for which we can provide a suitable solution whether it is by key operation or digital mechanical/electronic hardware

A forensic Locksmith is provided for insurance, legal and law enforcement agencies.

A choice of restricted key systems, (Master Keyed etc), which offers key control to the client, is available and can be tailored to individual needs. We can also cut keys to code for lockers and cabinets. Chubb and Union mortice keys cut while you wait.

Full Automotive Locksmith service is now provided. Keys for vehicles can be cut to pattern or by code. Transponder keys can be cut & programmed. If you have lost your keys or have accidentally locked your keys into your vehicle we can programme keys on site and unlock your car for you so there is no towing involved. Car remotes can be repaired and we supply and fit replacement batteries for most car keys.

We offer a wide range of key cutting to code for lockers/cabinets and cars including ELECTRONIC coding as used now by the Automobile Industry.

All types of locks supplied and fitted to Insurance Specifications where required. We also stock a wide range of locking stripes, lockcases, handles and cylinders for Aluminium & PVC doors. If we do not stock an item we will endeavour to source it for you. Nightlatch locks supplied & fitted to Timber Munster Joinery doors.

A full range of safes, (Free standing/Under floor etc.), supplied & installed to suit domestic and commercial/ industrial requirements.

Our full time staff now consists of William and Carmel Ryan, Joe Ryan, Sinead Wallace, Joe Hastings, Denis O'Connell, Kevin Bourke & Alan O'Toole which allows us to provide both a workshop and Call-out service to our customers.
