There are two wide entrance/exit openings from Dooradoyle Lane to the 1,000 space Free Car Park which is landscaped with mature evergreens and encircles the building. Pedestrian entrances to the shopping area are located on all four sides with double doors welcoming shoppers into the warmth and keeping the cold winter wind outside. That's what makes the Crescent Centre shine all the time. There are four entrances to the shopping area from the vast Car Park, so shoppers have a minimum walk from shop to car. And each entrance has its own individual name and colour code to guide shoppers out the way they came in.

Crescent Centre looks so unusual with no shop windows to be seen from the outside! Everything's inside, warm and dry under one roof — that's what makes Crescent so unusual, for the ultimate in one-stop-shopping pleasure.

**OPEN THURSDAY NEXT 5 P.M.**
