
ST. MICHAEL'S PARISH REFORM CLUB.

At a very numerous and respectable meeting of the inhabitants of this parish, professing Liberal principles, held in Mr. RUSSELL'S Ball-Boom, Thomas-street, on yesterday, Captain KANE in the chair, it was resolved that all present do form themselves into a society to be called the "St. Michael's Parish Reform Club," for the purpose of promoting the general principles of Reform. It was likewise agreed upon that this Club do act in union with similar Clubs already established in St. Mary's and St. John's parishes, for the purpose of carrying out their objects the better.

A committee of fifteen, including the chairman, was appointed to meet on this day, at twelve o'clock, for the purpose of framing rules and regulations to direct the operations of the Club.

This was *no* hole or corner meeting, nor for the nomination of Town Councillors either. It was a meeting of Parishioners, merely, to form a Parish Club. The circular published by a cotemporary last evening as having been sent them requesting the attendance of a reporter from their office, was an anonymous one. There was nothing to be reported, consequently reporters could not be invited.

ST. MICHAEL'S PARISH REFORM CLUB.

The rules and regulations for directing the future operations of this Body were adopted by the Committee on Tuesday last, to which the members are pledged to adhere *most rigidly*. There appeared in a cotemporary what was stated to be a report of what occurred at the formation of this Club, on Monday last, as "furnished by a gentleman present." Now, we beg to inform our cotemporary that he never, in his life, was so completely humbugged in a report. The general observations attributed to persons in that report had *not* been used; those that *had* been used were not furnished him, whilst the proceedings altogether were most maliciously perverted, as nineteen-twentieths of those present could testify. Scarcely one word of truth appeared throughout the entire, save that the Club was formed. But, on such an occasion, the columns of our cotemporary were just the medium for this "gentleman's" report, as also, for the strictures of "A constant opponent of Corporate mismanagement." We wish our cotemporary joy of both his correspondents.
