to achieve such outstanding box office triumphs in America, Ireland, England, throughout Scandinavia, Australia, and many other places in scattered parts of the globe? "Born Yesterday" is a comedy which, while it has witty dialogue throughout, is not primarily dependent on words or bizarre situations for its laughs. This is particularly evident when one considers the success this sparkling film is at present enjoying in such countries as Norway and Sweden, where only a few in the audience understand the English language. There is rich humour in the character of the business tycoon so brilliantly portrayed by Broderick Crawford, while men and women alike respond wholeheartedly to Judy Holiday's endearing creation of the most naive blonde who ever appeared on the screen.

MISCELLANY.

Although some patrons at the Savoy last week were under the impression that the applause that greeted "The End" of "Of Men And Music," was of relief, there are others, the majority, who applauded in appreciation. Here is an experiment which deserved to

stunt artist succeed, and let's hope that the Savoy management will let us Limerick on have the opportunity of seeing one

The Limerick goalie, Noel Kelly, had five stitches inserted in an eye injury received during the course of play. His place was filled by P. Collieran, who did well. P. O'Connor (Limerick) also sustained an eye injury which necessitated eight stitches.

HEARTY SEND-OFF TO LIMERICK HOCKEYITES

STANLEY de Lacy (I.P.Y.M.A.), Captain of the British and Irish Hockey touring team, and his Limerick touring team-mate, Noel O'Dwyer (Catholic Institute), were given a hearty send off en route for South-Africa, at the Limerick railway terminus on Saturday afternoon.

Among those who wished them a successful tour and a pleasant voyage, were his Worship the Mayor (Councillor S. Coughlan), Mr. W. R. Miller, Chairman of the Touring Team's Selection Committee, Major J. G. O'Dwyer, former well-known member of the Irish Army Equitation team, and father of Noel O'Dwyer; Mrs. S. de Lacy; Mr. Eddie O'Connor, Irish International Hockey goal-keeper; Mr. Paddy O'Brien, North Munster Branch, I.H.U., Mr. John O'Dwyer (brother of Noel O'Dwyer); Rev. Brother Bulger, and Mr. J. McNab. The Mayor said that both players had brought great honour to Limerick on being selected on the touring team. It was notable that the Captain was a Limerick man, while Noel O'Dwyer was the youngest player of the party. He expressed the hope that both players would do very well, and that in due course there would be glowing reports of their displays. Perhaps, when the South African Rugby tourists came to Limerick during the winter they would, he added, have something great to say about the performances in the hockey tests in South Africa of these two Limerick men.

Asked what he thought of the touring selection generally, Stanley de Lacy said he looked forward to the team doing very well, as it was an exceptionally strong selection. He also looked forward to meeting some Limerick people who are now domiciled in South Africa.

Noel O'Dwyer said he was also delighted to be a member of the touring party, and he, too, was also hoping to meet some Limerick people in South Africa while on tour.

Stanley de Lacy is the holder of 25 official caps as an Irish International player. He has been selected on Ireland teams since 1937. But for the intervention of the Second World War he would easily have bettered the record of the late Walter Dick as the holder with 42 of the greatest number of Irish caps.

Noel O'Dwyer came into International prominence during the past season. His displays for Ireland were so good that the International selectors of all the home countries were high in their praise of him.

The selection and officials will leave London on to-morrow by air-liner for Livingstone, South Africa.

In the annals of Irish hockey the selection of two Limerick representatives on a touring trip of such magnitude may well be an unique event. At least, it is an historic occasion, and we wish both players well.
