PHYSICAL EDUCATION.

ROYAL GYMNASIUM,
CATHERINE-PLACE, PERY-SQUARE, WEST.
MONSIEUR HUGUENIN

TAKES leave to inform the Nobility, Gentry, and the Public in general, that his Classes in his Gym- nasium continue as usual for Gentlemen, on Mondays, Wednesdays, and Fridays, at half-past Seven in the morning, at Three in the afternoon, and at half-past Eight in the evening. In the Kalisthenic class, for young Ladies, on Tuesday, Thursdays and Saturdays, at half-past Two in the afternoon; and for persons living in the country, on Wednesday and Saturdays, at 12 at noon.

As the wonderfully beneficial effects of Gymnastic exercises must be now generally known, having been so often advertised, and so many, both Gentlemen and Ladies, having recovered their health, and been cured of numberless deformities by them, Mr. H. thinks it unnecessary to say anything on that head; but if there remain any doubt, the sanguine support they have met with, from the Medical Gentlemen of this City is, he hopes, sufficient to remove it, they having within the last year sent many of their patients to the Gymna- sium to complete their cure, and some of them send their children there, though not sick or deformed, but merely to add to their strength, to accustom them to a variety of positions, and to render them adroit and agile. And Mr. H. begs to add, that it is well known by those who have practised those exercises, that not only personal strength and mental energy are promoted by them, but also the beauty of the form; and they (if he may use the expression) not only teach, but give the power to step gracefully.

Monsieur HUGUENIN, ci-devant resident Tutor at Lord Chichester's, continues to teach French and Italian to private Families and Schools.
