#### L I M E R I C K.

This Day arrived One Packet, from which we have extracted the following Paragraphs.

Jan. 30.—"His Majesty has had a restless night—and is not so quiet this morning as he was yesterday."

Signed by the PHYSICIANS.

Yesterday, (Jan. 29.) Mr. Pitt moved in the House of Commons, that the order of the day for a Committee of the whole House to consider of the state of the nation, be deferred till Monday the 2d of February, which was carried 70 against 51, majority for the minister 19. Debates in full in our next.

Last Monday when Mr. Sheriff M'Mahon proceeded to the punishment of Robert Brown, who was sentenced at the last General Quarter Sessions to be whipped at Glounbrahane, in this county, for an assault and riot; the Sheriff and his party, consisting of a detachment from the Royals, commanded by Lieut. Edwards, were immediately attacked by upwards of three thousand country people, with stones and fire arms; a ball passed through the hat of Philip Holmes, Esq; who with James Gubbins, of Kenmare Castle, Esq; were the attending Magistrates, and used every exertion and persuasion to disperse the rioters, but without effect; another shot passed through the coat of Mr. M'Mahon, and grazed his horse's shoulder; the party were in imminent danger of being surrounded and cut off in a defile near the foot of the Galtee mountains.—They were ordered to fire, by which means the mob were kept at some distance.—The Sheriff and the party under his command acted with great coolness and humanity, and the Sheriff with the utmost resolution took the most active of the rioters, and brought him prisoner to town; accounts are since arrived in town that one woman was unfortunately killed, and two men wounded.

#### A SPORTING QUESTION.

The four following horses are to start for sweepstakes, viz.—A, B, C, and D, and it is supposed by the best judges that they are equally matched as possible: Now Mr. Gamble laid ten guineas and took A, against C and then he laid ten guineas A, against B.—Secondly, Mr. Sharp laid ten guineas A, against C, and also he laid ten guineas B, against D.—Thirdly, Mr. Rider laid Mr. Gamble ten guineas to four that he would not win both his bets, and then laid Mr. Sharp ten guineas to four that he would not win both his bets.—*Quere.* What is Mr. Rider's advantage or disadvantage by laying these bets?
