T. W. GARVIN, A. M., Principal.

Frampton's Pill of Health.

PRICE 1s. 1½d. PER BOX.

Excellent Family PILL is a Medicine of
tried efficacy for correcting all disorders of
Stomach and Bowels, the common symptoms of
Constiveness, Flatulency, Spasms, Loss of
Stomach, Sick Head-ache, Giddiness, sense of Full-
ness, Sick Measles, Dizziness of the Eyes, Drowsiness
in the Stomach and Bowels. Indigestion
and a Torpid State of the Liver, and a constant
obstruction of the Bowels, causing a disorganization of
the Frame, will, in this most excel-
lent preparation, by a little perseverance, be effectually
removed. Two or three doses will convince the
patient of its salutary effects. The Stomach will
regain its strength; a healthy action of the
Bowels, and Kidneys, will rapidly take place;
instead of listlessness, heat, pain, and jaundic-
appearance; strength, activity, and renewed
vigor will be the quick result of taking this medi-
cine according to the directions accompanying each box.
Pills are particularly efficacious for Stomach
Pain, Colds, Agues, Shortness of Breath, and all
obstructions of the Urinary Passages; and if taken
to free an indulgence at table, they quickly
restore the system to its natural state of repose.
Persons of a FULL HABIT, who are subject to
Head-ache, Giddiness, Drowsiness, and Singing in
the Ears, arising from too great a flow of blood to
the head, should never be without them, as many
of the most distressing symptoms will be entirely carried off by
the immediate use.

FEMALES these Pills are most truly excel-
lent for removing all obstructions; the distressing Head-
ache, very prevalent with the sex; Depression of
the Spirits, Dulness of Sight, Nervous Affections, Blot-
ches, Pimples, and Sallowness of the Skin, and give
freshness and juvenile bloom to the complexion.
MOTHERS, they are confidently recommended
as the best medicine that can be taken during preg-
nancy; and for children of all ages they are unequalled.
A pleasant, safe, easy Aperient, they unite the
beneficial effect, and require no restraint of diet or
abstinence during their use. By regulating the
action according to the age and strength of the patient,
they become suitable for every case, in either sex,
and can be required; and for ELDERLY PEOPLE
they will be found to be the most comfortable medi-
cine hitherto prepared.
