TO THE EDITOR OF THE LIMERICK CHRONICLE.

Scariff, November 3.

SIR—Having observed on the last number of your Journal a statement to the effect that the R.C. Curate of Scariff has been interdicted the exercise of clerical functions, &c., I beg to acquaint you that you have been misinformed, and that the statement is utterly false.* I did nothing for which I could not cite both precedent, and example, but I abstain from particulars. I did nothing but what others did, with this difference, that the people threatened to overwhelm me with their unexpected and ruinous liberality. I did not deceive the populace—I am incapable of deceiving them. The truth is, that the humble masses are apt to deceive themselves, and in some instances, can with difficulty be undeceived. I gave them the most enlightened and liberal view I could of the object of their prayers and mine, to supplicate the Most High, that in His mercy He would be pleased to avert a famine. Feeling that all I could say had not the effect of removing erroneous impressions, or preventing the panic-struck peasantry from coming from remote quarters, I refused their money and resolved to have no more to say to them, than to undeceive them with increased energy.

As to the money I received, it shall be applied to the purposes for which I originally intended it—to charitable purposes.

Hoping that you will be so good as to give this letter a place in your journal,

I am, Sir, respectfully yours,

J. TUOHY, R. C. C.
