THANKSGIVING SERVICES.

A Thanksgiving Service for the recovery of the King will be held at St. Margaret's Church, Westminster, on Sunday morning next. Simultaneously with the ceremony at the Abbey on Saturday morning, there will be a special service at St. Saviour's, Southwark. The Service will be choral, but the music, owing to the unavoidable absence of a large number of the choir on their holidays, will be of a simple character. The Jewish clergy have been recommended by the Chief Rabbi that on Saturday the order of service should be used which he caused to be issued at the time of the postponed Coronation. He also suggests that after the Sermon thanksgiving should be offered for the King's happy recovery.

DAIRYING IN ITALY.

At one of the most important trials of Cream Separators ever held on the Continent, the "Melotte" has again been awarded the First Prize, Diplome D'Honneur, beating no less than eight competitors. These trials took place at Mantova, Italy (the birthplace of the poet Virgil), where an extremely interesting and comprehensive exhibition of Agricultural and Dairy Machinery and products attracted some thousands of visitors.

The progress of Italy during the past few years has been great, but in no department has this country made more rapid strides than with Dairy Products; the increasing quantities of Italian cheese and butter imported by Great Britain are the best evidence of this.

The Italian Government is evidently fully alive to the importance of employing the latest machinery and methods, and the Hand Cream Separator trials before referred to will doubtless be of interest to British Dairy Farmers, especially those who have not yet made use of that wonderful invention, the Cream Separator, which it is not too much to say has revolutionised the work, and immeasurably increased the profits of the dairy.
