SPECIALITIES—"W. ed Killer."—We would call particular attention to this useful liquid for totally destroying weeds on gravel and other walks; one trial will prove this. "Watson's celebrated lawn sand" for destroying daisies and weeds in lawns: also a useful fertilizer. "Hippacea," the best remedy known for wounds and bruises on cattle, horses, sheep, and dogs. We have received numerous testimonials as to its curative properties. For cyclists and any persons liable to accidents it is invaluable. "Fly Preventative"—This invaluable preparation is unrivalled, for preventing flies annoying cattle in hot weather. We would strongly urge gentlemen and farmers to use it, as it would be a great relief to their cattle.—**SMITH, PARKER, & FITZ, William street, Limerick.** (June 20)
